Masks should be a personal choice. Personally I have stopped frequenting establishments within Charles County that are requiring them. I take my business elsewhere, to other counties and states. If the mask provides protection against Covid then those whom fear it can wear their mask but others should not be forced to when it causes breathing problems for them. I was recently sick with an upper respiratory infection which made it difficult to breath. I was on antibiotics, steriods and tested negative for covid and flu. However due to my limited lung capacity it makes my breathing difficult in a mask. So difficult at times I have to pull my mask down and take deep breaths. My point is - it should be our choice. I'm happy like many others to take my money out of the County and have already been doing so. End this craziness before there is nothing left of our county.
