There is a water problem. It a serious water problem at the intersection of Washington Avenue and Baltimore Street in La Plata, Charles County, Maryland. It is my understanding that the County owns Washington Avenue and Talbot Street. It is my understanding that the Town of La Plata owns Baltimore Street. It is also my understanding that the storm water is all tied together. It is also my understanding that when the County built the county District Court building, the storm water management problem became even worse. It is my understanding that there is a library planned to be built or constructed in close proximity to my office located at 100 Washington Avenue, La Plata, Charles County, Maryland. I am requesting that the County address this storm water management problem now. In the alternative I am requesting that the County and the Town of La Plata address this storm water problem NOW! Respectfully submitted. Rudy A. Carrico, Jr. Attorney Licensed to practice law in the State of Maryland since 1985 100 Washington Ave La Plata, MD 20646 Please find attached hereto videos and photographs taken on July 5, 2022 showing the serious impact that the rain had on the intersection of Washington Avenue and Baltimore Street on or about July 5, 2022
