Many residents and myself have some serious concerns about the information that has been sent out in regards to Charter Government . I'd like to know who gave the information to put on that flyer ? Who decided what households to send it to ? How much was the cost ? Because there's a lot of unanswered questions and misleading information on that document sent out by Charles County Government . Residents who live or work in Charles County must pay a Charles County tax every paycheck , just because they're renters doesn't mean that they don't count . Why wasn't this information sent out to every registered voter in Charles County ? This seems as if you targeted a particular group that you wanted to support Home rule while leaving out the majority of the county that will support Charter Government . Where is the accountability ? That document doesn't give the complete pros and cons and is misleading . Why does it explain that with charter government our government leaders will actually be elect by voters and would actually live in Charles County , not just rent out a house the taxpayers pay for , oh I wonder if our county administrator , county attorney , or heads of all of our government agencies received a flyer in regards to Charter Government considering that they don't actually live in the county and or are renters . This flyer doesn't explain the disadvantages of the Tri-County Agreement or the Southern Maryland Region Delegation , now we understand why D1 has been working so hard to manipulate a fair and transparent process in regards to Charter Government . Let's also note that one person has all of the power right now within Charles County Government who does all the hiring and or firing , that's the Charles County administrator and friends who controls Charles County Government , not our Commissioners nor taxpayers . The county administrator is Charles County Government employees boss , not the Charles County Government Board of Commissioners . This is why Democratic voters in Charles County haven't been getting a fair shot and this is why Charles County is so far behind other counties in regards to resources , legislation , economic development and so much more . Charles County has government employees who don't have Charles County's best interest at heart , and have no incentive to perform or over perform at a very high level of standards , transparency and accountability to our voters who's the majority in Charles County . What is your task to provide every voters with as much information as possible ? .
