With the multiple housing units being built in Bryans Road when will real Community Centers be built for area. With the influx of children coming into the community how are you all making preparation to add more amenities specifically on the Western side of Charles County for the children. These schools are not easily accessible for thr children to walk to and not everyone lives in a HOA community where these things are established already. Also, what about more affordable food options??? Yes, the Oasis store has opened but is it affordable for everyone in the community? When will we get more AFFORDABLE food options on the Western side of the county?? You all want to build more homes which increases our property taxes but yet there are no benefits or amenities being added. I know this comment will be not be considered but I know you all have heard what the residents want and need and you all do not take this into consideration at all. Very disappointed resident
