Subject: Opposition of Land Donation to the Official Piscataway Conoy Tribe:

To Whom It May Concern,

As an enrolled tribal member, I am opposed to the donation of land to “The Official Piscataway Conoy Tribe”. This entity and representative Francis Gray has done nothing for our community other than create division within our tribal community over the span of his self entitled position.

The sudden desire from Charles County to donate this land, after displacing the Cedarville Band from this same land after 40+ yrs of occupancy leads me to believe there may be ulterior motives benefiting Mr. Gray opposed to benefiting the tribal community at large. While I am appreciative of the gesture Charles County is making by “donating” this parcel, I have two questions, why now? And why Mr. Gray, when there is an active lawsuit against him for falsely identifying himself as tribal chair?

If Charles County truly wants to make a commitment to the Piscataway Conoy Tribal community, they will as they have always claimed, stay out of tribal politics and allow this donation to be reconsidered in the future.
