As a COO of an nonprofit 501(c)3 who has provided hundreds of thousands of dollars to Piscataway Conoy Tribal members for services, needs, etc, I'm appalled that the Charles County Government would consider giving land to an entity who is currently involved in an active court case, who has no record of ever doing anything of any considerable size dollar value for the tribal community or Charles County. What would make you think that Francis Gray could ever keep this property up, not considering the hazardous site. What would make you think that he had over \$200,000 to fix the septic? What makes you think that could do anything? He supposedly had a lease for more than a year. He didn't even cut the grass. This should not be transferred! Let the court case complete.
