**Proposal Summary (Describe proposal in 1 sentence)**

This legislative proposal would allow Charles County residents to petition voters to put forward local legislation on a general election ballot in the form of a ballot initiative.

**Code References (List any sections/chapters of the Charles County or State Code that you believe would be impacted by the proposal, if known)**

**Problem (Describe the problem the proposal addresses)**

Many residents put forward great policy ideas and local legislative proposals, however they do not move forward. We have seen legislation die, with or without reason, even though a large number of residents supported the legislation. This makes people

feel as if they have no power when it comes to their local democratic process.

**Solution (Explain how the proposal addresses the problem).**

This proposal would solve the problem by giving residents the ability to petition Charles County voters to put a local law on a general election ballot. Which would not only increase voter participation, but also empower residents to taken an active role in their local government and allow residents to directly decide on what legislation they want to see put in place.

**Organizational Support (List any organizations that would likely be in support of the proposal, even if not confirmed).**

N/A

**Proposed Draft Language (Provide draft language for the legislation if you have it).**

This legislative proposal would allow residents to petition 5% of Charles County registered voters to put a ballot initiative on a general election ballot. A petition shall include a proposed law pursuant to Charles County, with the following exemptions; - A law imposing a tax; - A law appropriating government funds; - A law redistricting commissioner districts; - A law affecting Commissioner salaries or benefits; - A law affecting County government staff positions or hiring. All petitions shall be compliant with the manner prescribed by the Maryland constitution. Once the 5% threshold has been reached and approved by the Charles County Board of Elections. The Commissioner may vote to pass the legislation, without adding amendments, or vote in the affirmative, without adding amendments, to put the proposed law on the next regularly scheduled general election ballot for a full vote by all Charles County voters. If the ballot initiative fails no action is taken. If the ballot initiative is approved by voters, the law shall take effect 30 days after the certification of the general election results. A downloadable copy of blank petition forms shall be posted on the Charles County government website. If this legislative proposal is approved by the Board of Commissioners it shall be put on the 2026 general election ballot for a vote by Charles County voters.

**Problem (Describe the problem the proposal addresses)**

Currently if a Commissioner seat is vacated during a term the Central Committee, associated with the party of the Commissioner who represented the seat before the vacancy, holds an appointment process. This process does not have to include public input,

forums, or voting by residents. It allows a small group of 16 people to decide who represents a district or county at-large in the Commissioner seat.

**Solution (Explain how the proposal addresses the problem).**

The legislative proposal would establish a special election process that would allow residents of the respective district or county at-large to vote for someone to fill the vacancy for the remainder of the term.

**Proposed Draft Language (Provide draft language for the legislation if you have it).**

**Proposal Summary (Describe proposal in 1 sentence)**

This proposal aims to establish term limits for County Commissioners in Charles County, Maryland.

**Code References (List any sections/chapters of the Charles County or State Code that you believe would be impacted by the proposal, if known)**

Chapter 27 Commissioners, County

**Problem (Describe the problem the proposal addresses)**

Term limits address the problem of entrenched political power by ensuring regular turnover in elected office. Without limits, long-term incumbents can become disconnected from voters, resistant to change, and vulnerable to corruption and cronyism. This discourages new voices from entering public service and can lead to voter apathy and stagnation in government. Term limits

promote accountability, reduce special interest influence, and create space for fresh ideas and leadership that better reflect the evolving needs of the community.

**Solution (Explain how the proposal addresses the problem).**

This proposal addresses the problem of entrenched political power and lack of accountability by establishing clear term limits for Charles County Commissioners. By capping the number of terms any one person can serve, it ensures regular turnover and prevents the concentration of power in the hands of a few officials. This creates opportunities for new leaders with fresh perspectives, innovative ideas, and stronger ties to the community to step forward and serve. The proposal promotes government transparency and responsiveness by eliminating the "career politician" dynamic that often leads to complacency, political favoritism, and resistance to change. With term limits in place, commissioners are more likely to focus on effective governance and the public good rather than political survival or catering to entrenched interests. Additionally, term limits level the playing field for elections. They reduce the built-in advantages of incumbency, such as name recognition, donor networks, and political influence making it easier for grassroots candidates and everyday residents to run viable campaigns. This enhances citizen engagement and helps restore public confidence in local government by showing that leadership positions are accessible and accountable. Ultimately, this proposal ensures that Charles County government stays dynamic, representative, and community-focused, while reinforcing the principle that no one should hold power indefinitely.

**Organizational Support (List any organizations that would likely be in support of the proposal, even if not confirmed).**

I believe the democratic Central committee, the Charles County NAACP, The League of Women Voters and several other local organizations would support this proposal

**Proposed Draft Language (Provide draft language for the legislation if you have it).**

Simply removing salary cap or keeping it at \$250,000

**Other Information To Note**

The property tax incentive is to maintain our senior volunteers that for numerous situations have become less active and is designed to give these "property owners" a means to offset the current economic situation we all endure at this present time. And yes, we do have younger volunteer families here in Charles County that do have "starter homes" and this incentive would assist these members as well. , this legislation has been endorsed for two years by our county commissioners, it costs the state nothing, we would ask the Charles County Delegation to endorse this small benefit for our volunteer Fire/EMS members, send it back to our county and allow our county officials to enact this legislation. And finally, under the leadership of State Senator Michael Jackson our volunteer friends in Calvert County along with other counties across the state have enjoyed this same legislation and with much success, we would ask the delegation; "what's so different about the Charles County Volunteers"? These same volunteers have saved millions upon millions of dollars providing very good service to the residence and guest of our county.
