

Charles County COVID-19

Incident Action Plan

Operational Period

From

4/11/20
8:00

To

4/14/20
8:00

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name Charles County COVID-19	2. Operational Period	Date From: 4/11/20 Date To: 4/14/20 Time From: 8:00 Time To: 8:00															
3. Objectives																	
<p>A. Ensure the safety and overall health and well-being, including mental health of the residents, county employees, and responders, throughout this incident.</p> <p>B. Conduct surveillance of COVID-19 cases in collaboration with the health department, hospital, physicians, and other health care providers.</p> <p>C. Maintain timely, accurate and uniform communications with residents, employees and first responders as well as partners in the tri-County and National Capital Region and the state of Maryland.</p> <p>D. Prepare for and handle the human reaction crisis contingencies in long terms.</p> <p>E. Prepare for long term order maintenance.</p> <p>F. Prepare for and sustain our communities' hierarchy of needs throughout this incident.</p> <p>G. Determine trigger points for Continuity of Operations for all agencies, including government, public safety, schools, hospital, and other critical infrastructure systems.</p> <p>H. Ensure all practical steps to "Slow the Spread" of transmission of COVID-19.</p>																	
4. Operational Period Command Emphasis																	
<p>Please keep in your thoughts and prayers the family of Marcus, and his co-workers.</p>																	
General Situational Awareness <p>Take some time for yourself. Your health is important too! Be sure to reset when possible.</p>																	
5. Site Safety Plan Required? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No Approved Site Safety Plan(s) Located at:

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name Charles County COVID-19	2. Operational Period	Date From: 4/9/20	Date To: 4/11/20
		Time From: 8:00	Time To: 8:00
3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:			
"Take some time for yourself. Your health is important too! Be sure to reset."			
<p>1. Total identified PUI's transported to date: 181 Total # of patients testing positive : 29</p> <p>2. PPE stockpiles remain stable with an estimated supply range of 10+ days based on current call volumes.</p> <p>3. Revision to EMSOP Special Order 2020-01 Version 3.1 has been completed and disseminated to staff.</p> <p>4. As this is a rapidly changing landscape, leaders should review any changes with their personnel each morning.</p> <p>5. With the implementation of the most recent update of special Order 2020-01 V 3.1, personnel should continue to perform wellness checks twice a day as prescribed in the SO as well as decon apparatus frequently.</p> <p>6. Personnel who report having a fever, sore throat, cough or other respiratory related symptoms should stay at home and self-isolate until they are symptom free for a period of 72 hours.</p> <p>7. Personnel who have recently travelled to a suspected COVID-19 country or have taken a cruise which ported at a COVID-19 infected region should not report to work. Those personnel are being asked to self-isolate at home for a period of 14 days.</p> <p>8. Personnel with facial hair should be aware of the NIOSH requirements for properly fitting filtering facepiece respirators in relation to their specific facial hairstyles. A CDC infographic was disseminated to staff with compliance guidance. Those with facial hair not in compliance drastically increase their risk of exposure even when using an N95 mask.</p> <p>9. The County's Peer Support Team has been activated and will make weekly wellness checks with our County's first responders. We are working through the logistics but will provide an email address and phone number to contact the team. Will disseminate when we have the contact information.</p> <p>10. Please remember that PPE caches are for EVERYONE. We are all in this together so there is no longer career and volunteer PPE caches.</p> <p>11. Per Special Order 2020-01 Version 3.1, limit the number of first responders having patient contact. This means no more ride-alongs, no more students and no more 3rd's.</p> <p>12. Seal off the driver from the patient compartment area. (close door, or plastic with duct tape)</p> <p>13. We are starting to see a broad spectrum of calls for service that are turning out to have PUI's involved. Calls like MVC's, CVA's, Falls and even Fires. Please be aware and ask each patient or person you contact if they have a fever, cough or other related symptoms.</p> <p>14. Under the approval of the EOC and to keep congruent with the CDC and Governor Hogan's recommendations, Safety has approved the use of simple face masks (commercial or crafted) in the public arena. Per SOP, N95's are to be used for all patient contacts with reuse guidelines in place per the CDC recommendations.</p>			
<p>Site Safety Plan(s) Located At: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>5. Prepared by: Name: <u>John Filer</u> Title: <u>Safety Officer</u> Signature: _____</p>

HOSPITAL BRIEF 4-10-2020

- The trigger point for starting up the tent operations outside of the hospital has not yet been activated. Activation will be determined by both staffing levels and patient census presenting to the ED.
- The hospital census for today 4/10/2020 = 75
- Confirmed positive cases of COVID-19 patient admissions in-house 4/10/2020 = 19
- CRMC has dedicating one unit specifically to be for COVID-19 positive patients or for PUI's that have been admitted to the hospital. The dedicated COVID-19 unit is on 3 South until further notice. That 3 South COVID-19 unit has been fully activated as of 4/3/2020.
- There are currently 7 patients in the ICU as of 4/10/2020.
- Number of ventilators owned by CRMC = 20. As of 4/10/2020 there are 2 patients on ventilators. Both of the 2 patients on ventilators are positive for COVID-19.
- An EMS Ambulance decontamination area has been established in a parking lot near the ambulance area (but not obstructing to it).
- CRMC has implemented a policy that requires ALL staff, visitors (which would be very limited), and contractors of any kind to wear a mask while in the hospital at all times.
- A patient brought by EMS early this morning that was positive for COVID positive and died.
- Confirming that as of 8:00 am this morning 4/10/2020, there have been four (4) COVID-19 related deaths at CRMC in total to date.

Law Enforcement Branch Briefing

COVID-19 Charles County IMT

April 9st, 2020

Buildings:

Charles County Sheriff's Office: District 1 Lobby is closed for scheduled remolding. The District 1 clerks have moved the CCDC Annex building in the same parking area and that lobby is open as normal

On-scene arrest: 1

PUI Intake at CCDC: 2

Items of Note: (Not for redistribution)

None

*CHANGES IN RED

Intelligence Briefing 4-10-2020
COVID Charles County

Updated Infection Numbers: As of 0927 hrs.

Total worldwide: 1,619,495 **+120,662** since the 4-9-20 brief.

Worldwide increase of confirmed cases by 24-hour period over the last 10 days

3-30/4-1	4-1/4-2	4-2/3	4-3/4	4-4/5	4-5/6	4-6/7	4-7/8	4-8/9	4-9/10
76,079	79,559	73,920	100,041	186,194	64,020	73,985	160,963	48,490	120,662

Total fatalities worldwide: 97,200 **+13,632** since the 4-9-20 brief

Analysis note: The wild swings in worldwide confirmed case numbers and fatality numbers continue to illustrate the lack of consistent reporting channels. These number should not solely be used to gauge the scope and magnitude of the current situation.

Total confirmed cases in the US: 466,396 **+33,958** since the 4-9-20 brief

US increase of confirmed cases by 24-hours period over the last 10 days

3-31/4-1	4-1/4-2	4-2/3	4-3/4	4-4/5	4-5/6	4-6/7	4-7/8	4-8/9	4-9/10
24,215	27,174	28,383	32,922	33,913	26,514	29,538	30,846	32,641	33,958

Analysis note: The US case number increases have remained relatively unchanged for the last 10 days. However, this is likely not an indication of “flattening the curve.” As the data is reviewed, keep in mind we are reporting an additional 28 to 33,000 NEW cases each day. We have yet to see any dramatic decreases in diagnoses new cases.

Total fatalities in US: 14,808 **+1,895** since 4-9-2020

Maryland Numbers: As of 1000 hrs. via <https://coronavirus.maryland.gov/>

Total confirmed cases in State in of MD: 6,968 **+783** since the 4-9-20 brief

Total tested in the State of MD: **37,480 +2,136** over 4-9-20

Percent of those test that test positive: **18.5%**

Analysis note: This number has doubled in less than 10 days. Maryland percentage of positive test is now on par with PA, MA, IL, MI, CA and LA.

Total Fatalities in State of MD: 171 **+33** change since the 4-9-20 brief

Total Hospitalizations: 1,413 **Increase of 65** from 4-9-2020

First Responder Numbers in Charles County:

No numbers reported

Weather:

Sat 58-44, Sunday 67-57 rain, Monday 78-46 Rain

Analysis note: Warm weather will likely mean more people outside, increasing the probability of gatherings. Rainy weather will drive people into their residences. The potential for increased calls for police service exists.

Local:

Visited several stores this AM. Inventories seem to be stabilizing. Multiple pallets of paper products were available at one big box store. Lines were minimal. Frozen food and some non-perishable food were thin. Staples such as milk, bread, and meats were well stocked.

Nice article published on WJLA about a food operation in Charles County

<https://wjla.com/news/local/nonprofit-charles-county-restaurant-deliver-lunch-health-care-heroes>

Analysis note: These stories are vital to keeping community engagement positive and lifting spirits.

Maryland Update:

Montgomery County requires all shopper to have faces covered

MD release racial number on COVID-19 case

- African American 2,064
- Data not available: 1,354
- White: 1,540
- Other: 449
- Asian: 122

Region:

Over 6,412 cases in the NCR as of 0500 4-10-2020

11,750 cases in Maryland, DC, and Virginia as of 1100 on 4-10-2020

VA closes 12 liquor stores in NVA as a result of staff shortages

Costco allows 1st responders and healthcare workers skip lines with ID

National:

Good article on creating plans for the return to new normal:

<https://cadmusgroup.com/articles/the-covid-19-recovery-conversation-must-start-today/>

Nearly 100 cruise ships remain off the US coast waiting for docking orders

6.6 million Americans file for unemployment last week. Total of 16.8 million Americans have filed for unemployment since the virus.

Local critical infrastructure:

No outages or disruptions are reported or are appear to be likely as of today.

Predications/ Analysis:

- As critical case in Charles County remain low, needs in other local jurisdictions are growing. Resources should be prioritized and plans should be made to share/deploy critical resources, personnel, and/or facility space to meet the needs regionally.
- The longer this crisis continues the more likely we are to experience critical events that may not be related to the COVID crisis (incidents within the incident). Those in leadership positions need to be prepared to step into duel leadership/managerial roles at a moment's notice. This requires taking care of yourself and staying up on the latest tactics, strategies and knowledge.
- Planning for crisis recovery starts as soon as the crisis begins. Monday marks the 8th weeks of this crisis, 6th week of schools being closed. Partners and stakeholders should begin planning for what the return to the “new normal” looks like in their organization. Sharing of these plans will help each organization build more comprehensive processes.
- Over the weekend the US will likely eclipse 500,000 cases and 15,000 deaths. Md numbers will likely pass 5000 and 150 fatalities by Friday. These numbers will cause increased pressure to ratchet up rhetoric re: “stay at home orders” and could result in further sanctions and restrictions.
- As the confirmed case numbers continue to rapidly ascend the likelihood of jurisdictions issuing “travel bans” increases. Law enforcement should begin researching the constitutionality of these potential edicts and have plans in place for implantation and begin to develop a public communication strategy. Standardizing local “travel authorization documentation” should be explored by the lead jurisdiction having authority.
- Due to diverted attention, the international and domestic terrorism threat is rapidly increasing. Responders should be reminded to remain vigilant and of the DHS guidelines for spotting suspicion activities and terrorism indicators.
- As we enter into the reported peak of this situation communication, along with sharing of individual branch capability and capacity is more important now than ever. “We don’t know what we are going to need to know until we need to know it.”
- First responder organizations should begin surveying members for pre-existing conditions and other complicating medical conditions. Responders found to have pre-existing conditions should be placed in limited citizen contact roles.
- A review of the 179 countries that report COVID-19 cases, only two (South Korea and China) have somewhat “flattened the curve” of NEW infections. Both showed flattening roughly 30 to 45 days after the initial spikes. The initial spike in the US began around 3-18-2020.

- Reduced stability in the supply chain along with increased fear and anxiety can be expected with today's "stay at home order."
- After 3 weeks of social distancing and schools being closed non-english speaking communities within Charles County are likely feeling further isolated due to a lack of language specific communications. Direct and increased messaging to Spanish speakers is likely necessary.
- As mass transit continues to shrink in availability, plans should be made to ensure those who rely on it for essential supplies and trips have delivery resources.
- LE and EMS screening protocols should include questions about recent travel to NY, NJ, CT, and FL.
- Immediate attention is needed to direct companies and organization on the proper processes and appropriate contact to use (Donation Manager at the EOC) to donate PPE and cleaning materials to essential personnel
- The next 7 days will likely see a stabilization of a majority of the grocery supply chain. However, the potential for disruption moving forward continues to remain high.
- FOIA and PIA request from media and citizens groups will likely begin to increase the longer this event lasts. "New normal" processes need to be established as soon as possible.
- Lack of child care options will likely add to family stress. Additional resources, activity and options are needed.
- JIC staff should substantially amplify community resource communications
- As we enter the 2nd week of social distancing stress, anxiety, and fear will likely increase. Continuous reminders of patience and focusing on kindness will become increasingly important.
- Many stores restock overnight. Seniors and the vulnerable populations should be strongly encouraged to shop during the early morning hours when supplies are likely to be at their highest.
- As testing increased the confirmed cases in MD will increase. This will likely cause additional life restrictions.
- Supply chain issues will continue and likely increase as further life interruptions and travel restrictions are ordered. The possibility of violence increases as stress increases, especially at grocery stores.
- Commanders of responders and essential staff should have robust plans for potential quarantines and updated continuity of operations including plans for diminished manpower. Further, responder organizations should begin reviewing existing integration plans with the National Guard.
- Obtaining medical supplies and PPE will continue to be an issue for the foreseeable future. All services should use the command ordering process so orders can be tracked.
- The community of Charles County is showing increased signs of pulling together and assisting one another. The JIC should continue to encourage civility and increase positive press of good news stories occurring throughout our community.

“ The most effective leaders in crises ensure that someone else is managing the present well, while focusing their attention on leading beyond the crisis toward a more promising future”

Charles County Public Schools Briefing 4-10-2020
COVID Charles County

48-hour Priorities:

- Maintaining instructional continuity
- Expanding and maintaining food service
- Expanding and maintaining WiFi service

Meals:

On 4/9/20 CCPS served 5868 meals at the 11 meal distribution sites. That number was -831 from 4/8/20. Westlake, St. Charles, Parks and Ryon had the highest distribution.

Reminder no meal distribution Saturday and Sunday.

Closure:

School closure through at least 4-24-20.

Instruction:

Moving forward with contacting the families that have not registered for online learning or picked up a learning packet at the distribution sites.

Community Wifi:

All four sites are up and running and seeing use. CCPS is still determining where to expand our current WiFi to 3 other additional sites.

Misc:

CCPS has established a hotline for our non-English speaking populations to help guide them through these uncertain times. That number is 240-523-3032.

The Maryland State Department of Education (MSDE) has approved a new Continuing Professional Development (CPD) experience to award educators up to 6 CPD credits for having implemented their local school system's (LSS) Continuity of Learning Plan.
