We are also posting quick tips to help with self-care, stress, etc. General Impression: Many employees have started discussing insomnia, particularly the night before shift. Courtney is putting together some meditation, breathing, stretching exercises to help. The Academy Class VI lost one of their classmates this week in a car accident. They are struggling with dealing with the loss in an already highly charged stress time with the pandemic as many are just starting their careers. A lot of time has been dedicated to keeping in touch with class members and Marcus' family and other co-workers. A CISM meeting is set for the Academy Class VI tonight. Several employees have run "regular" stressor calls such as pediatric codes, domestic abuse, murder, etc. Some have experienced abnormal reactions for themselves, most likely due to already being in high-stress state. All seem to be doing okay coping after being able to talk it out. Follow-ups are on-going with them.</i></p>
