

Charles County COVID-19

Incident Action Plan

Operational Period

From

4/28/20
8:00

To

4/30/20
8:00

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name Charles County COVID-19	2. Operational Period	Date From: 4/28/20	Date To: 4/30/20			
		Time From: 8:00	Time To: 8:00			
3. Objectives						
<p>A. Maximize the safety and overall health and well-being, including mental health of the residents, county employees, and responders, throughout this incident.</p> <p>B. Conduct surveillance of COVID-19 cases in collaboration with the health department, hospital, physicians, and other health care providers.</p> <p>C. Maintain timely, accurate and uniform communications with residents, employees and first responders as well as partners in the tri-County and National Capital Region and the state of Maryland.</p> <p>D. Prepare for and handle the human reaction crisis contingencies in long terms.</p> <p>E. Prepare for long term order maintenance.</p> <p>F. Prepare for and sustain our communities' hierarchy of needs throughout this incident.</p> <p>G. Determine trigger points for Continuity of Operations for all agencies, including government, public safety, schools, hospital, and other critical infrastructure systems.</p> <p>H. Ensure all practical steps to "Slow the Spread" of transmission of COVID-19.</p>						
4. Operational Period Command Emphasis						
<p>Document all Plans by sending them to DESPlanning@charlescountymd.gov</p> <p>All submitted plans should have in the Subject area:</p> <p>.....example....."LE Force Reduction Plan 04/28/20"</p>						
General Situational Awareness						
<p>" Keep our County clean always and especially during the COVID-19 crisis. Throw used gloves and masks away in the trash, NOT on the street!"</p>						
<p>5. Site Safety Plan Required? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>Approved Site Safety Plan(s) Located at:</p>

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name Charles County COVID-19	2. Operational Period	Date From: 4/28/20	Date To: 4/30/20
		Time From: 8:00	Time To: 8:00
3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan: <p style="color: blue; text-align: center;">"Keep our County clean especially during the COVID-19 crisis. Throw used gloves and masks away in the trash, NOT on the street!"</p>			
<p>1. Total identified PUI's transported as of 4/27: 466 Total # of patients testing positive : 84</p> <p>2. PPE stockpiles remain stable with an estimated supply range of 10+ days based on current call volumes.</p> <p>3. Revision to EMSOP Special Order 2020-01 Version 4.0 has been completed and disseminated to staff.</p> <p>4. As this is a rapidly changing landscape, leaders should review any changes with their personnel each morning.</p> <p>5. Speical Order 2020-04 Version 1.0 was released today. New guidelines for personnel at the beginning of their shift, end of their shift and at the station.</p> <p>6. Personnel who report having a fever, sore throat, cough or other respiratory related symptoms should stay at home and self-isolate until they are symptom free for a period of 72 hours.</p> <p>7. The County's Peer Support Team has been activated and will make weekly wellness checks with our County's first responders.</p> <p>8. Please remember that PPE caches are for EVERYONE. We are all in this TOGETHER so there is NO career and volunteer PPE caches.</p> <p>9. Under the approval of the EOC and to keep congruent with the CDC and Governor Hogan's reccomendations, Safety has approved the use of simple face masks (commercial or crafted) in the public arena. Per SOP, N95's are to be used for all patient contacts with reuse guidelines in place per the CDC recomendations.</p> <p>10. The Viral Pandemic Triage Protocol (SO 2020-02) starts today for all EMS clinicans. Please make sure you document accordingly in ELITE.</p>

IN CHARLES COUNTY: 301-383-3683**

PUBLIC HEALTH BRANCH BRIEFING COVID-19 PANDEMIC RESPONSE

April 27, 2020

GENERAL REPORTING INFORMATION

INFECTIOUS DISEASE

CASE COUNT—CHARLES COUNTY

As of 4/27/2020, total case count for Charles County is 529.

- *The line list with confirmed case counts for Charles County is continuously updated as lab reports are received from MDH, hospitals, and commercial laboratories.*
- *Contact tracing efforts are continuous with a focus on healthcare workers, EMS, and police.*

CALL CENTER UPDATE

- Operation time: 0800 to 2200.
- The numbers to call remain the same: 301.609.6717 or 301.609.6777
- Volume for new system is approximately 60 call per day.

MEDIA, SOCIAL MEDIA AND WEBSITE

- Nothing new to report.

PARTNER/STAKEHOLDER OUTREACH

LTC/AL

- The Long-Term Care and Assisted Living call will be held Thursday, April 30 at 3 p.m. by CCDOH nurse liaisons.

ALL-PARTNER

- The all-partner call will be held Thursday, April 30 at 4 p.m. by CCDOH nurse liaisons.

EPI SURVEILLANCE PROFILE FOR STATE

Case Investigation, Surveillance, and Infectious Disease Response (D, Blythe)

- 1) Latest case counts – total: 19,487 (78,084 negative)
- 2) New cases: 1,513

a) **Age distribution:**

- i) under 18 years - 2 %
- ii) in 19-64 age range 74%
- iii) in 65+ age range 24%

b) **Geographic distribution:**

- i) National Capital 53%
- ii) Baltimore Metro area 41%
- iii) Eastern Shore 3%
- iv) Southern 2%
- v) Western 1%

- c) Of cases, 53% female; 47% male
- d) Hospitalizations 50 new; total 4,101
- e) Deaths -- Total 858 (31) in Last 24hrs)
- f) Release from isolation – 1,263

CONFIDENTIAL – (INFORMATION BELOW IS FOR CORE PLANNING GROUP ONLY)

RESOURCE DISTRIBUTION

- 1 request received 04/24/2020; 1 request received 4/27/2020 a.m.
- 1 order fulfilled and facilities contacted; 1 order yet to be filled
- Nurse liaisons will be also assessing LTC/AL needs and encouraging them to enter proper PPE requests and encourage pick up.

VOLUNTEERS

MARYLAND MEDICAL RESERVE CORPS

- 1 responder accepted into unit 04/27/2020

TESTING

VEIP TESTING SITE UPDATE

- Tested to Date as of April 23 (TTD): 455
- 100 appointments slots were made available for Tuesday, April 28, 2020
- Calvert County Health Department will be opening 2 testing lanes at the Calvert VEIP site 04/27/2020

EPIDEMIOLOGY AND SURVEILLANCE

Charles County

- As of 4/27, total case count for Charles County was 529 cases.
- There have been 40 confirmed deaths associated with COVID-19 (7%). Majority of deaths are associated with outbreaks in skilled nursing facilities.
- Average age of fatalities: 77 years
- Gender breakdown among confirmed fatalities: 69% Female, 31% Male
- Racial breakdown among confirmed fatalities:
 - 58.3% Non-Hispanic White
 - 38.9% Non-Hispanic Black
 - 2.8% Hispanic
- Number of negative lab results: 2270
- Positivity Rate: 18.9%
- Recovered and released from isolation: 106
- Partially recovered with improved symptoms: 26
- 123 or 23% required hospitalization
- 318 (60.1%) Female; 211 (39.9%) Male
- 17% Healthcare Workers
- 2% First Responders: EMS, Fire, Law Enforcement

- 32% have underlying health conditions
- Age range of positive COVID-19 cases: 3 months-100 years

Age Distribution for Charles County cases:

- Under 18 years: 11 (2.1%)
- 18-64 years: 391 (73.9%)
- 65+ years: 127 (24%)

ESSENCE data for urgent care utilization at Patient First in Waldorf had no data warnings or alerts for Saturday, April 25th or Sunday, April 26th. Patient volume was 37 patients on Saturday and 33 patients on Sunday. This is typically volume for a weekend. All were discharged to home for self-care. 11 patients presented with ILI or COVID-19 like symptoms on Saturday, and 7 patients presented with ILI or COVID-19 like symptoms on Sunday. Diagnoses for ILI patients on Saturday included acute pharyngitis, acute upper respiratory infection unspecified, acute maxillary sinusitis, cough, allergic rhinitis, chest pain on breathing, unspecified viral infection, and acute frontal sinusitis. There was 1 case with a CDC Classifier tag for Visit of Interest on Saturday. On Sunday, there were no CDC Classifier tags, and diagnoses for ILI patients included asthma exacerbation, acute pharyngitis, acute maxillary sinusitis, acute pharyngitis, cough, shortness of breath, and bronchitis with or with tracheitis.

Surveillance of EMS call data and alerts

The epidemiologist monitors the Charles County DES First Watch trigger alerts. The number of daily trigger alerts for COVID-19 cases or COVID-19 persons under investigation was 16 on 4/25 and 8 on 4/26. Discussions with Robbie Jones from EMS reveal data issues with the alert system. The decrease in COVID-19 PUI alerts does not indicate a decrease in call volume. The epidemiologist has also noticed potential COVID-19 PUI that came as regular trigger alerts. Robbie said that they have to fix each tablet in order to fix the problem and have more accurate data.

- 4/25: 16
- 4/26: 8

Racial breakdown: The data is now being captured in the MDH line lists of confirmed cases in REDCap. Data was accessed on 4/27 at 11:00 am. Please be cognizant that data may differ from numbers pulled later in the morning since new positive lab results are being received by the health department and entered into NEDSS throughout the work day. This explains any discrepancies in the total count or denominator being used to calculate each data measure.

Total: 529 cases on 4/27 at 1100 am MDH line list assessed through REDCap:

Data on race and ethnicity changes daily as case investigations are completed and more information on demographics is updated in the electronic reporting disease system. Additionally, when there is an influx of new cases in electronic reporting disease system, data on race and ethnicity may not be available immediately for new cases since race information is not typically captured on a lab report and must be obtained during the investigation.

(Case counts with less than 7 cases should not be shared publicly. This data is confidential.)

Race Breakdown

- Asian: 11 (2.1%)
- Black/African American: 225 (42.5%)
- White: 121 (22.9%)
- Other or 2+ races: 20 (3.8%)
- Data not available: 152 (28.7%)

Ethnicity Breakdown

- Hispanic 12 (2.3%)
- Non-Hispanic 343 (64.8%)
- Declined to answer 38 (7.2%)
- Data not available 136 (25.7%)

Epidemiologist's note: Please use caution when drawing any conclusions regarding race or ethnicity. There is still a percentage where race data is not available, and information regarding this missing population cannot be assumed. Additionally, it should be noted that the greatest number of cases (58%) are the Waldorf zip codes of 20601, 20602, and 20603. Over half of the county population lives in those zip codes. Additionally, those zip codes have a very diverse population with minority populations comprising the majority of the zip code level population and with African Americans being the largest racial group in those zip codes.

Zip Code level data was also analyzed using the MDH line lists of confirmed cases in REDCap. Data was accessed on 4/27 at 11:00 am. (*Zip code level data with counts less than 7 cases cannot be shared publicly and must remain confidential.*)

Confirmed cases by zip code:

Zip code:	4/24	4/27	Change from 4/24 to 4/27
20601	59	75	+16
20602	82	90	+8
20603	120	143	+23
20604	1	2	+1
20607	10	10	0
20611	1	3	+2
20613	16	19	+3
20616	11	15	+4
20622	2	3	+1
20632	2	0	
20637	13	15	+2

20640	19	19	0
20645	0	1	+1
20646	56	63	+7
20658	1	3	+2
20662	5	8	+3
20664	4	5	+1
20675	3	6	+3
20677	4	5	+1
20693	2	2	0
20695	29	35	+6

• Hospital Volume Trends ED

Hospital Volume Trend Lines

These volume data are derived from real-time Admission/Discharge/Transfer feeds sent to CRISP. The thickness of the line is a measure of volume. These volume counts are imprecise for reasons such as differences in how feeds are implemented among hospitals. However, the trendlines provide utility in understanding directional volume change over time.

The orange reference line shows the statewide average relative volume by the day of the week, using all ADT data from January 1, 2020 to February 29, 2020.

MISCELLANEOUS

Respectfully submitted by Charles County PHEP

HOSPITAL BRIEF 4-27-2020

- The trigger point for starting up the tent operations outside of the hospital has not yet been activated. Activation will be determined by both staffing levels and patient census presenting to the ED.
- Hospital Bed Capacity = 166. Census = 84
- Hospital ICU Census = 7
- Hospital ICU is now a dedicated COVID-19 Unit, and 3 East is for ICU overflow.
- Isolation Room Capacity = 12
- Isolation Rooms Occupied = 7
- Confirmed positive cases of COVID-19 patient admissions = 25
 - Of the total 25 COVID-19 positive patients, seven (7) of the patients are located in the ICU. Eighteen (18) are located in the 3 South dedicated COVID-19 unit
- PUI admissions = 5
- Ventilated COVID-19 positive patients = 8
- Ventilators not in use = 12
- COVID-19 related deaths = 25
- CRMC has implemented a policy that requires ALL staff, visitors (which would be very limited), and contractors of any kind to wear a mask while in the hospital at all times.
- The 3 South patient unit at CRMC is dedicated to COVID-19 positive patients only.

Call Restrictions:

Charles County Sheriff's Office: None

Maryland State Police: None

Maryland Transportation Authority: None

La Plata Police Department: None

Natural Resources Police: None

Governor's Order Violations since Emergency Orders Issued:

Violation sustained calls for service: 45

Warnings: 42

Charges later: 2

On-scene arrest: 1

Health Department Order Violations (Between 04/16/20 and 04/18/20):

Calls for Service

Founded: 5

Unfounded: 10

Dispositions

Warnings: 5 issued

Items of Note: (Not for redistribution)

- Distribution of relief checks to start; postal inspector is worried about fraud and theft.

- Attacks against 5G towers, based on online conspiracy of a connection between China, the technology, and the spread of COVID-19.

***CHANGES IN RED**

Charles County Volunteer Firemen's Association, Inc.

Post Office Box #21, La Plata, Maryland 20646

April 27th, 2020

Re: Volunteer Fire/EMS Brief

Items Being Worked On:

- Reduction of Force Policy – *Information gathering occurring.*

Stations/Apparatus:

- No Station's with contamination issues. *(2 Over the Weekend)*
- No Apparatus with any contamination issues.
- No Service Deliverability Issues with Apparatus O.O.S.

Personnel - 27 Members across 4 Stations (6 Positive / 5 Negative):

- Fire Station 3 – 1 Member in 14 Day Isolation – Tested Positive 4/16/2020
- Fire / EMS Station 11 - 2 Members -2 Due to Family Members being Quarantined
 - o - 3 Members Due to potential exposure from another patient.
- Fire / EMS Station 12 – 17 members due to a Positive Member in the Station (Currently 5 Positive/5 Negative)
- Fire Station 4 – 2 Family Members Quarantined due to a Family Member testing positive.
- **Providers are slowly making improvement health wise.**

Incidents/Call Volume:

- No Major Incidents to Report related to COVID-19
- Yesterday's EMS Call Volume was average, and Fire Call Volume was below average
48 Ems Related Incidents ----- 15 Fire Related Incidents

Other Information:

- Continue to push out information about Social Distancing in the Stations.
- Continue to push out Peer Support Information.
- Podcast scheduled for today to discuss new SOG's and will include (2) 1st Responders to provide first-hand account of the importance of Social Distancing.
- Increase in Motor Vehicle Accidents over the weekend.

Respectfully Submitted,

Mark A. Kaufmann, Jr
County Fire Chief, Charles County Maryland

Total fatalities worldwide: 207,518 **+3,973** since the 4-26-20 brief

Analysis note: The wild swings in worldwide confirmed case numbers and fatality numbers continue to illustrate the lack of consistent reporting channels. These numbers should not solely be used to gauge the scope and magnitude of the current situation.

Total confirmed cases in the US: 967,585 **+28,336** since the 4-26-20 brief

US increase of confirmed cases by 24-hours period over the last 10 days

4-16/17	4-17 to 19	4-19/20	4-20/21	4-21/22	4-22/23	4-23/24	4-24/25	4-25/26	4-26/27
31,493	63,794	24,499	29,134	37,328	16,376	27,844	34,896	33,885	28,336

Analysis note: The US case number increases have remained relatively unchanged for the last 10 days. However, this is likely not an indication of “flattening the curve.” As the data is reviewed, keep in mind we are reporting an additional 28 to 33,000 NEW cases each day. We have yet to see any dramatic decreases in diagnoses new cases.

Total fatalities in US: 54,938 **+937** since 4-26-2020

Maryland Numbers: As of 1000 hrs. via <https://coronavirus.maryland.gov/>

Total confirmed cases in State of MD: 19,487 **+906** since the 4-26-20 brief

Total tested in the State of MD: 85,489 **+7,405** over 4-26-20

Percent of those test that test positive: **22.7% decrease of 1% since 4-26-2020**

Analysis note: Maryland percentage of positive test is now on par with PA, MA, IL, MI, CA and LA.

Total Fatalities in State of MD: 858 **+31** change since the 4-26-20 brief

Number of probable deaths: 87

Total Ever Hospitalized: 4101 **Increase of 139** from 4-26-2020

Persons currently hospitalized: **1513 +50** since 4-26-2020

First Responder Numbers in Charles County: NUMBERS AS OF 4-27-2020 @1230

38 Quarantine: means exposed and they can't come to work. **-5 since last report**
7 Self Isolation: means sick or tested positive **No change since last reported**

33 pending law enforcement case. More to follow tomorrow.

Weather:

Tuesday 60-48 sun, Wed 73-57 cloudy, 64-51 rain

Local:

Visited several stores this am. Some stabilization was noted. Paper product could be found if multiple stores were visited. Of note, meat counters were well stocked.

Local fire station was disinfected. No interruption in service.

Updated food pantry list (see attached)

Analysis note: More meat and poultry plants are closing. The cascading effects will continue to be felt for several weeks until adjustments are made to the supply chain or the factories re-open. Supply chain experts are indicating some stabilization is possible in the come days.

Nursing home and assistant living patients and staff make-up over **38%** of the total number of positive cases reported in Charles County.

Maryland Update:

Additional testing centers are being planned for Calvert and Washington counties
Gov. announces steps to recovery

Region:

Over 20,394 cases in the NCR as of 0500 4-27-2020,

36,914 cases in Maryland, DC, and Virginia as of 1100 on 4-27-2020.

A total of 122 inmates at the DC have tested positive for COVID. Currently, 54 are positive.

DC announces a 17-year old has passed from COVID

Sheetz providing free coffee to 1st responders thru June 1st.

DCFD reports 86 members have tested positive thus far

National:

Fed says social distancing through the summer is possible

CDC listed 6 more possible pre-indication symptoms of COVID

DHS releases DHS - National Biosurveillance Integration Center titled Biosurveillance Event Report (see attached)

As of April 22, there have been at least 2,700 reported COVID-19 positive cases tied to meatpacking facilities at 60 plants in 23 states. CISA Update, April 25

13 of the 25 ethanol plants in NB have paused production due to decreased fuel demand. Ethanol is also used to product sanitizer and disinfectant

Local critical infrastructure:

No outages or disruptions are reported or are appear to be likely as of today.

Predications/ Analysis:

- The length and scope of this situation have exposed large cracks in food supply chains, medical supply chains, fossil fuel industries, and other major portions of everyday life. Local leaders should begin a gap analysis and start the after-action process so they can create and modernize resiliency plans, local stockpiles, and coming up with other forward leaning solutions so when the next disaster occurs they are more self-sufficient and better prepared.
- While we have concentrated our efforts on peer support and helping our responders, a proactive approach to including families of first responders is quickly emerging. The command structure should consider a Family Support liaison or expand the Peer support branch.
- The increased discussions about opening the economy, added with the on-going conversation about health care in-equity and racial disproportionality of infections is causing increased polarization, angry, and hate. Social media is rampant with spirited discussions. It is only a matter of time before we begin to see emotions spill over into the public. The small protest we have witnessed thus far could pale in comparison to what is to come. LE should be reviewing plans, manpower, and boosting intelligence gathering to better prepare for potential situations.
- Protests over the continuing of stay at home orders, and business closures are becoming more prevalent and boisterous. Law enforcement should begin to make plans on how to track these groups and respond to events.
- First responder staffing and exposure issues will likely continue to increase. Priority messaging about PPE, manpower reduction strategies, and outside the box thinking should be continued and solutions expedited.
- FOIA and PIA requests for detailed records on infections in assisted living and nursing homes will increase as investigative reporting on this issue increases.
- Grocery stores could become a hotbed of fear and anxiety due to limiting numbers of patrons, assigning shopping days, mask requirements, and now limited meat supplies.
- As critical case in Charles County remain low (outside of nursing homes and assisted living homes), needs in other local jurisdictions are growing. Resources should be prioritized and plans should be made to share/deploy critical resources, personnel, and/or facility space to meet the needs regionally.
- The longer this crisis continues the more likely we are to experience critical events that may not be related to the COVID crisis (incidents within the incident). Those in leadership positions need to be prepared to step into dual leadership/managerial roles

at a moment's notice. This requires taking care of yourself and staying up on the latest tactics, strategies and knowledge.

- Planning for crisis recovery starts as soon as the crisis begins. Monday marks the 8th weeks of this crisis, 6th week of schools being closed. Partners and stakeholders should begin planning for what the return to the “new normal” looks like in their organization. Sharing of these plans will help each organization build more comprehensive processes.
- Over the weekend the US will likely eclipse 500,000 cases and 15,000 deaths. Md numbers will likely pass 5000 and 150 fatalities by Friday. These numbers will cause increased pressure to ratchet up rhetoric re: “stay at home orders” and could result in further sanctions and restrictions.
- As the confirmed case numbers continue to rapidly ascend the likelihood of jurisdictions issuing “travel bans” increases. Law enforcement should begin researching the constitutionality of these potential edicts and have plans in place for implantation and begin to develop a public communication strategy. Standardizing local “travel authorization documentation” should be explored by the lead jurisdiction having authority.
- Due to diverted attention, the international and domestic terrorism threat is rapidly increasing. Responders should be reminded to remain vigilant and of the DHS guidelines for spotting suspicion activities and terrorism indicators.
- As we enter into the reported peak of this situation communication, along with sharing of individual branch capability and capacity is more important now than ever. “We don’t know what we are going to need to know until we need to know it.”
- First responder organizations should begin surveying members for pre-existing conditions and other complicating medical conditions. Responders found to have pre-existing conditions should be placed in limited citizen contact roles.
- A review of the 179 countries that report COVID-19 cases, only two (South Korea and China) have somewhat “flattened the curve” of NEW infections. Both showed flattening roughly 30 to 45 days after the initial spikes. The initial spike in the US began around 3-18-2020.
- Reduced stability in the supply chain along with increased fear and anxiety can be expected with today’s “stay at home order.”
- After 3 weeks of social distancing and schools being closed non-english speaking communities within Charles County are likely feeling further isolated due to a lack of language specific communications. Direct and increased messaging to Spanish speakers is likely necessary.
- As mass transit continues to shrink in availability, plans should be made to ensure those who rely on it for essential supplies and trips have delivery resources.
- LE and EMS screening protocols should include questions about recent travel to NY, NJ, CT, and FL.
- Immediate attention is needed to direct companies and organization on the proper processes and appropriate contact to use (Donation Manager at the EOC) to donate PPE and cleaning materials to essential personnel

- The next 7 days will likely see a stabilization of a majority of the grocery supply chain. However, the potential for disruption moving forward continues to remain high.
- FOIA and PIA request from media and citizens groups will likely begin to increase the longer this event lasts. “New normal” processes need to be established as soon as possible.
- Lack of child care options will likely add to family stress. Additional resources, activity and options are needed.
- JIC staff should substantially amplify community resource communications
- As we enter the 2nd week of social distancing stress, anxiety, and fear will likely increase. Continuous reminders of patience and focusing on kindness will become increasingly important.
- Many stores restock overnight. Seniors and the vulnerable populations should be strongly encouraged to shop during the early morning hours when supplies are likely to be at their highest.
- As testing increased the confirmed cases in MD will increase. This will likely cause additional life restrictions.
- Supply chain issues will continue and likely increase as further life interruptions and travel restrictions are ordered. The possibility of violence increases as stress increases, especially at grocery stores.
- Commanders of responders and essential staff should have robust plans for potential quarantines and updated continuity of operations including plans for diminished manpower. Further, responder organizations should begin reviewing existing integration plans with the National Guard.
- Obtaining medical supplies and PPE will continue to be an issue for the foreseeable future. All services should use the command ordering process so orders can be tracked.
- The community of Charles County is showing increased signs of pulling together and assisting one another. The JIC should continue to encourage civility and increase positive press of good news stories occurring throughout our community.

“The most effective leaders in crises ensure that someone else is managing the present well, while focusing their attention on leading beyond the crisis toward a more promising future”

Charles County Public Schools Briefing 4-27-2020
COVID Charles County

48-hour Priorities:

- Maintaining instructional continuity
- Expanding and maintaining food service
- Expanding and maintaining WiFi service

Meals:

No meal distribution Saturday and Sunday.

Last week CCPS total "unofficial" number of meals for the week was 27,300, and meals served since March 16 is 156,856.

Closure:

Charles County Public Schools (CCPS) now remains closed through May 15. All schools, buildings and centers will remain closed to the public.

Instruction:

CCPS is in stage three, and final stage, of its distance learning and continuity of learning.

Community Wifi:

All four sites are up and running and seeing use. CCPS in process of 3 other additional WiFi sites.

Misc:

None

CC DES Peer Support Services Weekly Report

April 27, 2020

Face-to-Face visits: 27 employees from EMS, 6 employees from Communications

Phone Contacts: 69 employees

Social Media: Courtney and Debi continue to monitor social media habits and posts for marked changes. Both are making posts on CCEMS Facebook to engage employees and provide positive motivation and tips in getting through this pandemic.

CISM: Sagepoint Senior Living reached out for help with their nursing staff in the midst of their COVID-19 outbreak, the death of an employee, and all the negative publicity they have been receiving from the media. Three team members were able to offer them CISM on 04/22/20.

General Impression: Employees remain as stressed and mentally fatigued as they have the past 2 weeks. Many are accepting this as the new normal for them. Fear is still heightened about contracting this virus and taking it home to their loved ones. Now that we employees who have tested positive for COVID-19, there is a new sense of caution. Some are starting to reconcile that they are doing all they can to protect themselves while others are still worried, they are not.
