<b>PIO:</b>	<p><i>I need your help. In thinking about what kind of media collateral we will need down the road, I am confident we'll want an extensive archive of appropriate photos and video footage, where applicable, of the impacts of COVID-19 to our government services. For example, we have taken photos of the triage area at the hospital, the VEIP testing site, broadcasting updates inside our studio, virtual BOCC meetings, and signage updating the public on our operating status.</i></p> <p><i>What other things could we photograph or record and add to our archive? I know there are electronic sign boards out there, signage at parks, operations at the EOC, emergency responders with PPE, etc. If there are examples of changes the way we are doing business that could be documented, please let me know your suggestions and ideas. Please let me know how and when our media team can safely photograph or record our efforts as they are occurring.</i></p>
