

Charles County COVID-19

Incident Action Plan

Operational Period

From 5/9/20 8:00 - To 5/12/20 8:00

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name Charles County COVID-19	2. Operational Period	Date From: 5/9/20	Date To: 5/12/20	Time From: 8:00	Time To: 8:00
3. Objectives					
A. Maximize the safety and overall health and well-being, including mental health of the residents, county employees, and responders, throughout this incident. Minimize the effects resulting from this incident on all personnel.					
B. Conduct surveillance of COVID-19 cases in collaboration with the health department, hospital, physicians, and other health care providers.					
C. Maintain timely, accurate and uniform communications with residents, employees and first responders as well as partners in the tri-County and National Capital Region and the state of Maryland.					
D. Prepare for and handle the human reaction crisis contingencies in long terms.					
E. Prepare for long term order maintenance.					
F. Prepare for and sustain our communities' hierarchy of needs throughout this incident.					
G. Ensure all practical steps to "Slow the Spread" of transmission of COVID-19.					
H. Determine trigger points for Continuity of Operations for all agencies, including government, public safety, schools, hospital, and other critical infrastructure systems.					
I. Prepare for the New Normal.					
4. Operational Period Command Emphasis					
Continue to add daily to your After Action lists!!!					
General Situational Awareness					
"Eat right, stary fit and thrive. Happy Mothers Day to all the Moms."

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name Charles County COVID-19	2. Operational Period	Date From: 5/9/20	Date To: 5/12/20	
		Time From: 8:00	Time To: 8:00	

3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:

"Eat right, stay fit and thrive! "

1. Total identified PUI's transported as of 5/8: 618 Total # of patients testing positive : 109
2. PPE stockpiles remain stable with an estimated supply range of 10+ days based on current call volumes.
3. EMSOP Special Order 2020-01 Version 4.1 has been updated to include new travel guidance from MIEMSS as well as out of County decon best practices.
4. As this is a rapidly changing landscape, leaders should review any changes with their personnel each morning.
5. Speical Order 2020-04 Version 1.1 was released on 05-05-2020. New guidelines for personnel at the beginning of their shift, end of their shift and at the station.
6. Personnel who report having a fever, sore throat, cough or other respiratory related symptoms should stay at home and self-isolate until they are symptom free for a period of 72 hours.
7. The County's Peer Support Team has been activated and will make weekly wellness checks with our County's first responders.
8. Please remember that PPE caches are for EVERYONE. We are all in this TOGETHER so there is NO career and volunteer PPE caches.
9. Special Order 2020-03 V2.1 was updated on 05-06-20. New guidelines added on employee return to work procedures.
10. Collection and limited re-use of PPE is starting the week as a Contingency Plan. Procedures are outlined in Special Order 2020-05 V1.1. The primary plan of single use PPE is still in Place.

PUBLIC HEALTH BRANCH BRIEFING COVID-19 PANDEMIC RESPONSE

May 10, 2020

GENERAL REPORTING INFORMATION

INFECTIOUS DISEASE

CASE COUNT—CHARLES COUNTY

As of 5/10/2020, total case count for Charles County is 748.

- *The line list with confirmed case counts for Charles County is continuously updated as lab reports are received from MDH, hospitals, and commercial laboratories.*
- *Contact tracing efforts are continuous with a focus on healthcare workers, EMS, and police.*

CALL CENTER UPDATE

- Operation time: 0800 to 2200.
- The numbers to call remain the same: 301.609.6717 or 301.609.6777
- Volume for new system is approximately 60 call per day. (*Approximately 20 calls this past weekend.*)

MEDIA, SOCIAL MEDIA AND WEBSITE

- Complaints concerning mask use coming in about 1 per day.

PARTNER/STAKEHOLDER OUTREACH

LTC/AL

- The Long-Term Care and Assisted Living call will be held Thursday, May 14, at 3 p.m. by CCDOH nurse liaisons.

ALL-PARTNER

- The all-partner call held will be held Thursday, May 14, at 4 p.m. by CCDOH nurse liaisons.

EPI SURVEILLANCE PROFILE FOR STATE

Case Investigation, Surveillance, and Infectious Disease Response (D, Blythe)

- 1) Latest case counts – total: 32,587 (127,344 negative)
- 2) New cases: 1,053
 - a) **Age distribution:**
 - i) under 18 years - 2 %
 - ii) in 19-64 age range 74%
 - iii) in 65+ age range 24%
 - b) **Geographic distribution:**
 - i) National Capital 53%
 - ii) Baltimore Metro area 41%
 - iii) Eastern Shore 3%
 - iv) Southern 2%
 - v) Western 1%
 - c) Of cases, 53% female; 47% male
 - d) Hospitalizations (-25 last 24 hours); total current 1,640; total ever 5,955
 - e) Deaths -- Total 1,538 (28 last 24 hours)
 - f) Release from isolation – 2,293

CONFIDENTIAL – (INFORMATION BELOW IS FOR CORE PLANNING GROUP ONLY)

RESOURCE DISTRIBUTION

- New PPE shipment will arrive next week
- IR thermometers will be included for distribution from CCDOH per request
- EM will have in its shipment 3 oz. bottles of hand sanitizer to distribute as needed

VOLUNTEERS

MARYLAND MEDICAL RESERVE CORPS

- Nothing new to report

CAREGIVER SERVICE CORPS

- Nothing new to report

TESTING

VEIP TESTING SITE UPDATE

- Tested to Date: 872
- For the seventh operational period, May 12-14 appointment slots will be increased to 135 per test day.

EPIDEMIOLOGY AND SURVEILLANCE

Charles County

***Epidemiologist's Note:** All data presented in the Charles County profile is a snapshot of the COVID-19 situation at one specific time period. Please be cognizant that data may differ from numbers presented later in the day since new positive lab results are being received by the state and local health department and entered into NEDSS electronic surveillance system throughout the work day. This explains any discrepancies in the total count or denominator being used to calculate each data measure; therefore, the date and time of data extraction for each data source is provided for your reference.*

As of 5/10, total case count for Charles County was 748 cases.

This number differs from the number released by MDH this morning. The epidemiologist found some discrepancies in the RedCap line list and had to talk to the state about changes. All cases from 20607 were being included as Prince George's County this week. MDH is working to get the Charles County cases from 20607 moved back into the Charles County line list and case count. They have added any new cases from 20607 to the line list, but we are still waiting for the previous 20607 cases to be moved back. After discussions with other local health department epidemiologists in the state, this has happened to several counties that share zip codes. MDH is overburdened at this time, so patience is needed as we sort out these problems.

There have been **53 confirmed deaths** associated with COVID-19. This equates to 7.1% of total confirmed cases. The Charles County death rate of 7.1% is higher than the MD state average death rate of 4.8%. However, it should be noted that the majority of deaths are associated with outbreaks in skilled nursing facilities. *(New data will be pulled on Monday, May 11.)*

- Average age of fatalities: 78.5 years

Age Distribution of Fatalities:

- 0-39 years: 0
- 40-69 years: 9 (16.9%)
- 70-79 years: 21 (38.9%)
- 80+ years: 23 (44.2%)
- Gender breakdown among fatalities: 71.7% Female, 28.3% Male

Racial breakdown among fatalities:

- 51.0% Non-Hispanic White
- 43.4% Non-Hispanic Black
- 1.8% Non-Hispanic Asian
- 3.8% Hispanic
- Number of negative lab results: 3303
- Positivity Rate: 17.9% (State positivity rate: 20%)
- Recovered and released from isolation: 177
- Partially recovered with improved symptoms: 46

- 147 or 20.4% required hospitalization: We have seen reductions in the percentage of cases needing hospitalization over the past 2 weeks. This may be due to the decline in cases in the skilled nursing facility outbreaks.
- Among confirmed cases, 413 (57.4%) Female; 282 (42.6%) Male
- 14% Healthcare Workers
- 1.8% First Responders: EMS, Fire, Law Enforcement
- 29.2% have underlying health conditions

Age Distribution for Charles County cases:

- Under 18 years: 15 (2.1%)
- 18-64 years: 536 (74.5%)
- 65+ years: 168 (23.4%)

***Epidemiologist's Note Concerning Race breakdown:** The data is now being captured in the MDH line lists of confirmed cases in REDCap. Data was accessed on 5/8 at 9:00 a.m. Please be cognizant that data may differ from numbers pulled later in the morning since new positive lab results are being received by the health department and entered into NEDSS throughout the work day. This explains any discrepancies in the total count or denominator being used to calculate each data measure.*

***Total: 753 cases on 5/10. MDH line list assessed through REDCap:** Data on race and ethnicity changes daily as case investigations are completed and more information on demographics is updated in the electronic reporting disease system. Additionally, when there is an influx of new cases in electronic reporting disease system, data on race and ethnicity may not be available immediately for new cases since race information is not typically captured on a lab report and must be obtained during the investigation.*

Race Breakdown

- Asian: 14 (2.0%)
- Black/African American: 298 (41.4%)
- White: 187 (26.0%)
- Other or 2+ races: 39 (5.4%)
- Data not available/Declined to Answer: 181 (25.2%)

Ethnicity Breakdown

- Hispanic 31 (4.3%)
- Non-Hispanic 496 (69.0%)
- Declined to answer 39 (5.4%)
- Data not available 153 (21.3%)

Nursing Home Outbreak Data: *(Confidential: Not for public dissemination)*

- Positive resident cases in Skilled Nursing Facilities/Assisted Living Facilities: 144
- Positive staff cases in Skilled Nursing Facilities/Assisted Living Facilities: 53
- Among those 144 resident cases, 109 are in skilled nursing facilities and 35 are in assisted living facilities.
- Current residents or staff who are Persons Under Investigation (PUI) in Skilled Nursing Facilities/Assisted Living Facilities: 1
- Total currently hospitalized: 6
- Deaths: 41

Charles County Efforts to Address the Governor's Executive Order regarding testing in Skilled Nursing Facilities:

All 4 skilled nursing facilities in Charles County received testing kits for their residents and completed resident testing by the close of business on Friday, 5/1. Most results have been received for each facility. There are 10 labs pending. A total of 371 residents in skilled nursing facilities were tested. 35 or 9.4% of those tests have come back positive for COVID-19. Health departments are looking at previous line lists to determine is which of those cases are previous positives and which are new positives for the facilities.

Testing for staff members has been put on hold. MDH released information yesterday to the skilled nursing facilities regarding the Governor's Order to test all residents and staff of nursing homes. Their protocol will involve the National Guard bridge teams coming in to do all of the testing at once. We are waiting for information on whether SNF residents will be retested using this National Guard protocol. There is a call with Dr Haft and the skilled nursing facilities today at 330. More information will be shared as soon.

***Epidemiologist Note:** Please use caution when drawing any conclusions regarding race or ethnicity. There is still a percentage where race data is not available, and information regarding this missing population cannot be assumed. Additionally, it should be noted that the greatest number of cases (59.2%) are the Waldorf zip codes of 20601, 20602, and 20603. Over half of the county population lives in those zip codes. Additionally, those zip codes have a very diverse population with minority populations comprising the majority of the zip code level population and with African Americans being the largest racial group in those zip codes.*

Zip Code level data was also analyzed using the MDH line lists of confirmed cases in REDCap. (New data will be pulled on Monday, May 11.)

(Zip code level data with counts less than 7 cases cannot be shared publicly and must remain confidential.)

Confirmed cases by zip code:

Zip code:	5/6	5/8
20601	102	112
20602	117	128
20603	173	186
20604	2	2
20607	16	16
20611	4	4
20613	11	16
20616	23	25
20622	3	3
20632	2	2
20637	18	18
20640	28	28
20645	1	1
20646	93	94
20658	3	3
20662	9	9
20664	8	8
20675	7	7
20677	9	9
20693	3	3
20695	44	46

***Epidemiologist's Note:** Here are the COVID-19 case rates per 1000 residents by zip code. Most zip codes saw an increase from 5/6 to 5/8; however, most were small increases.*

COVID-19 Positive Case rate per 1,000 residents as of May 8, 2020:

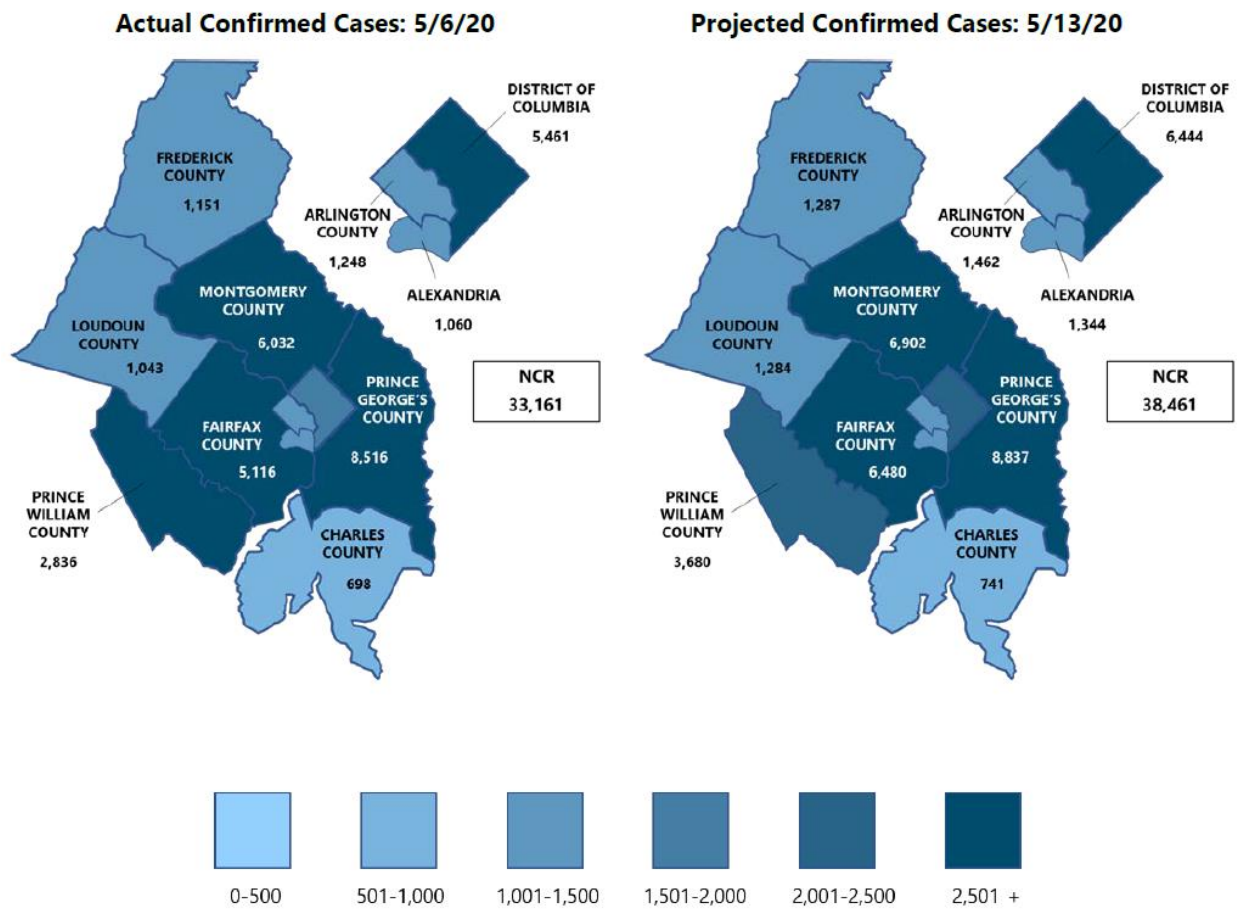

Case rates are only calculated for zip codes with 5 or more confirmed COVID-19 Cases.

COVID-19 Positive Case Rate per 1000 residents for each zip code with 5 or more confirmed cases:	4/30	5/5	5/6	5/8
20601	3.188	4.057	4.098	4.512
20602	3.967	4.688	4.849	5.249
20603	5.316	5.834	6.041	6.490
20616	2.732	3.756	3.927	4.098
20622	0	1.429	1.429	1.429
20637	2.766	3.135	3.319	3.504
20640	2.108	2.683	2.778	2.874
20646	3.759	4.817	4.923	4.976
20662	3.067	3.067	3.067	3.067

20664	1.674	2.678	2.678	3.013
20675	3.591	4.189	4.189	4.189
20677	2.153	3.445	3.876	3.876
20695	5.446	6.476	6.623	6.918

ADDITIONAL INFORMATION: *This includes the following:*

 Effective at 7 a.m. on May 7, safe outdoor activities will include **golf, tennis, recreational boating, fishing, and camping.**

 **Schools will remain closed for the remainder of the academic year.** Online and distance learning will continue.

LEARN MORE AT GOVERNOR.MARYLAND.GOV/RECOVERY | FOR HEALTH RESOURCES, VISIT CORONAVIRUS.MARYLAND.GOV

Region:

Over 36,522 cases in the NCR as of 1000 5-10-2020,
62,940 cases in Maryland, DC, and Virginia as of 1100 on 5-10-2020.

National:

AP infection map: <https://apnews.com/7b5a2994d351e5c1697e2c7478e2969c>

On May 08, the USDA approved \$1.2 billion in contracts to support American producers through the Farmers to Families Food Box Program. Through the program, the USDA's Agricultural Marketing Service will purchase \$461 million in fresh fruits and vegetables, \$317 million in a variety of dairy products, \$258 million in meat products, and \$175 million in a combination box of fresh produce, dairy or meat products.

Suppliers will package products into family-sized boxes, then transport them to food banks, community and faith-based organizations, and other non-profits serving those in need from May 15 through June 30. (NCR Sit Rep COVID 19-128)

In April, 88,300 truck drivers filed for unemployment benefits. It is likely that unemployment numbers will continue to rise as manufacturing remains closed. Trucking capacities remain low with decreased demand as carriers have moved out of the marketplace. NBEOC (May 08)

Fourteen major meatpacking facilities in the U.S. have resumed or plan to resume operations this week after implementing the CDC's and the Department of Labor's Occupational Safety and Health Administration (OSHA) guidelines. [USDA](#)

Local critical infrastructure:

No outages or disruptions are reported or are appear to be likely as of today.

Predications/ Analysis:

- We appear to be on the downward side or at least seeing a leveling of this crisis. Commander should take this time to review and collect documents needed to begin the AAR process of the tactical portion of this event. Logistics should begin placing orders to build stockpiles for the next round.
- The change at the Gov. Office re: to releasing nursing home case counts and fatalities this week is likely to create more questions than answers. In addition, it is likely to create a public uproar and increase anger.
- The length and scope of this situation have exposed large cracks in food supply chains, medical supply chains, fossil fuel industries, and other major portions of everyday life. Local leaders should begin a gap analysis and start the after-action process so they can create and modernize resiliency plans, local stockpiles, and coming up with other forward leaning solutions so when the next disaster occurs they are more self-sufficient and better prepared.
- While we have concentrated our efforts on peer support and helping our responders, a proactive approach to including families of first responders is quickly emerging. The command structure should consider a Family Support liaison or expand the Peer support branch.
- The increased discussions about opening the economy, added with the on-going conversation about health care in-equity and racial disproportionality of infections is causing increased polarization, angry, and hate. Social media is rampant with spirited discussions. It is only a matter of time before we begin to see emotions spill over into the public. The small protest we have witnessed thus far could pale in comparison to what is to come. LE should be reviewing plans, manpower, and boosting intelligence gathering to better prepare for potential situations.
- Protests over the continuing of stay at home orders, and business closures are becoming more prevalent and boisterous. Law enforcement should begin to make plans on how to track these groups and respond to events.

- First responder staffing and exposure issues will likely continue to increase. Priority messaging about PPE, manpower reduction strategies, and outside the box thinking should be continued and solutions expedited.
- FOIA and PIA requests for detailed records on infections in assisted living and nursing homes will increase as investigative reporting on this issue increases.
- Grocery stores could become a hotbed of fear and anxiety due to limiting numbers of patrons, assigning shopping days, mask requirements, and now limited meat supplies.
- As critical case in Charles County remain low (outside of nursing homes and assisted living homes), needs in other local jurisdictions are growing. Resources should be prioritized and plans should be made to share/deploy critical resources, personnel, and/or facility space to meet the needs regionally.
- The longer this crisis continues the more likely we are to experience critical events that may not be related to the COVID crisis (incidents within the incident). Those in leadership positions need to be prepared to step into dual leadership/managerial roles at a moment's notice. This requires taking care of yourself and staying up on the latest tactics, strategies and knowledge.
- Planning for crisis recovery starts as soon as the crisis begins. Monday marks the 8th weeks of this crisis, 6th week of schools being closed. Partners and stakeholders should begin planning for what the return to the "new normal" looks like in their organization. Sharing of these plans will help each organization build more comprehensive processes.
- Over the weekend the US will likely eclipse 500,000 cases and 15,000 deaths. Md numbers will likely pass 5000 and 150 fatalities by Friday. These numbers will cause increased pressure to ratchet up rhetoric re: "stay at home orders" and could result in further sanctions and restrictions.
- As the confirmed case numbers continue to rapidly ascend the likelihood of jurisdictions issuing "travel bans" increases. Law enforcement should begin researching the constitutionality of these potential edicts and have plans in place for implantation and begin to develop a public communication strategy. Standardizing local "travel authorization documentation" should be explored by the lead jurisdiction having authority.
- Due to diverted attention, the international and domestic terrorism threat is rapidly increasing. Responders should be reminded to remain vigilant and of the DHS guidelines for spotting suspicion activities and terrorism indicators.
- As we enter into the reported peak of this situation communication, along with sharing of individual branch capability and capacity is more important now than ever. "We don't know what we are going to need to know until we need to know it."
- First responder organizations should begin surveying members for pre-existing conditions and other complicating medical conditions. Responders found to have pre-existing conditions should be placed in limited citizen contact roles.
- A review of the 179 countries that report COVID-19 cases, only two (South Korea and China) have somewhat "flattened the curve" of NEW infections. Both showed flattening roughly 30 to 45 days after the initial spikes. The initial spike in the US began around 3-18-2020.

- Reduced stability in the supply chain along with increased fear and anxiety can be expected with today's "stay at home order."
- After 3 weeks of social distancing and schools being closed non-english speaking communities within Charles County are likely feeling further isolated due to a lack of language specific communications. Direct and increased messaging to Spanish speakers is likely necessary.
- As mass transit continues to shrink in availability, plans should be made to ensure those who rely on it for essential supplies and trips have delivery resources.
- LE and EMS screening protocols should include questions about recent travel to NY, NJ, CT, and FL.
- Immediate attention is needed to direct companies and organization on the proper processes and appropriate contact to use (Donation Manager at the EOC) to donate PPE and cleaning materials to essential personnel
- The next 7 days will likely see a stabilization of a majority of the grocery supply chain. However, the potential for disruption moving forward continues to remain high.
- FOIA and PIA request from media and citizens groups will likely begin to increase the longer this event lasts. "New normal" processes need to be established as soon as possible.
- Lack of child care options will likely add to family stress. Additional resources, activity and options are needed.
- JIC staff should substantially amplify community resource communications
- As we enter the 2nd week of social distancing stress, anxiety, and fear will likely increase. Continuous reminders of patience and focusing on kindness will become increasingly important.
- Many stores restock overnight. Seniors and the vulnerable populations should be strongly encouraged to shop during the early morning hours when supplies are likely to be at their highest.
- As testing increased the confirmed cases in MD will increase. This will likely cause additional life restrictions.
- Supply chain issues will continue and likely increase as further life interruptions and travel restrictions are ordered. The possibility of violence increases as stress increases, especially at grocery stores.
- Commanders of responders and essential staff should have robust plans for potential quarantines and updated continuity of operations including plans for diminished manpower. Further, responder organizations should begin reviewing existing integration plans with the National Guard.
- Obtaining medical supplies and PPE will continue to be an issue for the foreseeable future. All services should use the command ordering process so orders can be tracked.
- The community of Charles County is showing increased signs of pulling together and assisting one another. The JIC should continue to encourage civility and increase positive press of good news stories occurring throughout our community.

“The most effective leaders in crises ensure that someone else is managing the present well, while focusing their attention on leading beyond the crisis toward a more promising future” (Nutley and Marcus, 2019, Harvard Business Review)

Charles County Volunteer Firemen's Association, Inc.

Post Office Box #21, La Plata, Maryland 20646

May 10th, 2020

Re: Volunteer Fire/EMS Brief

Items Being Worked On:

- Reduction of Force Policy – *Information gathering occurring.*

Stations/Apparatus:

- No Station's with contamination issues.
- No Apparatus with any contamination issues.
- No Service Deliverability Issues with Apparatus O.O.S.

Personnel – 1 Members across 1 Stations:

- EMS Station 3 – 1 Quarantined due to a Family Member testing positive.

Incidents/Call Volume:

- No Major Incidents to Report related to COVID-19
- Yesterday's EMS Call Volume was below average, and Fire Call Volume was below average
41 Ems Related Incidents ----- 18 Fire Related Incidents

Other Information:

- Continue to push out information about Social Distancing in the Stations.
- Continue to push out Peer Support Information.

Respectfully Submitted,

Mark A. Kaufmann, Jr
County Fire Chief, Charles County Maryland
