In following other agencies that have stayed ahead of us throughout this COVID experience (meaning they started experiencing numbers before we did), concerns are arising with them as they are starting to see an incline in suicides and other mental health issues in their employees and hospital staff. We are working to be as proactive as possible in hopes we can deflect this trend we are seeing. We will be putting information out to our employees about suicide prevention and various numbers they can call. We will continue to make as many contacts as possible.</p>
