Sent to Queue

N95's are still being collected for decon at all CCSO District Stations, the Detention Center and at CRMC.

We have plenty of PPE, this is a secondary back-up effort.

PUBLIC HEALTH BRANCH BRIEFING

COVID-19 PANDEMIC RESPONSE

June 3, 2020

GENERAL REPORTING INFORMATION

INFECTIOUS DISEASE

CASE COUNT—CHARLES COUNTY

As of 6/03/2020, total case count for Charles County is 1,157.

- *The line list with confirmed case counts for Charles County is continuously updated as lab reports are received from MDH, hospitals, and commercial laboratories.*
- *Contact tracing efforts are continuous with a focus on healthcare workers, EMS, and police.*

CALL CENTER UPDATE

- Operation time: 0800 to 2200.
- The numbers to call remain the same: 301.609.6717 or 301.609.6777
- Call Center volume is approximately 30 to 60 call per day. (*Last 3 days: 12, 11, & 54 respectively*)

MEDIA, SOCIAL MEDIA AND WEBSITE

- PIO working on re-opening coalition multimedia campaign.
- **Reopening:** A webinar to discuss **COVID-19 Guidance for Maryland Strong: Roadmap to Recovery**:

Dear Charles County Business, Religious and Civic Leaders;

It is my great pleasure to invite you to a discussion on the health and business-related aspects of Reopening: A webinar to discuss “COVID-19 Guidance for Maryland Strong: Roadmap to Recovery” will take place from 12:30 until 2:00 p.m. on Thursday, June 4, 2020.

The format will be an interactive webinar presentation with a question and answer period to follow. The registration link to this presentation is found below. The slide deck for the presentation has additional links to valuable resources and guidance on business and health aspects of recovery. The deck and links will be emailed to all registered participants following the presentation.

Feel free to share this link with your colleagues.

- Tested to Date: 1,403
- Waldorf VEIP ran new hours of operation 8 a.m. – 12 p.m. yesterday due increasing summer temps. (*All VEIP sites will be operating on this schedule beginning next week.*)
- On Tuesday, June 2, a total of 168 appointment slots were available: 34 provider appointments made; 2 cancelled (*tested elsewhere*). 32 total tested
- Next test date is Thursday, June 4.

CHARLES COUNTY EPIDEMIOLOGY & SURVEILLANCE PROFILE

Epidemiologist's Note: All data presented in the Charles County profile is a snapshot of the COVID-19 situation at one specific time period. Please be cognizant that data may differ from numbers presented later in the day since new positive lab results are being received by the state and local health department and entered into NEDSS electronic surveillance system throughout the work day. This explains any discrepancies in the total count or denominator being used to calculate each data measure; therefore, the date and time of data extraction for each data source is provided for your reference.

As of 6/3 at 9 a.m., total case count for Charles County was 1157 cases. There was a total of 20 new cases in the last 24 hours. (The prior 24 hours there were 12 new cases.)

There have been 74 confirmed deaths associated with COVID-19. This equates to 6.4% of total confirmed cases. The Charles County death rate of 6.8% is higher than the MD state average death rate of 4.6%. However, it should be noted that the majority of deaths in Charles County are associated with outbreaks in skilled nursing facilities. The death rate for Charles County is going down from a high of 7.3% now that the outbreaks at skilled nursing facilities have been contained and/or reduced. There has been a small uptick in nursing homes related deaths due to the current outbreak at the Charlotte Hall Veterans Home where some Charles County residents reside. There was 1 probable COVID-19 death. COVID-19 is listed as the cause of death, but laboratory testing has not yet confirmed.

Average age of fatalities: 77.2 years

Age Distribution of Fatalities:

- 0-39 years: 0
- 40-69 years: 15 (20.0%)
- 70-79 years: 32 (42.7%)
- 80+ years: 28 (37.3%)

Gender breakdown among fatalities:

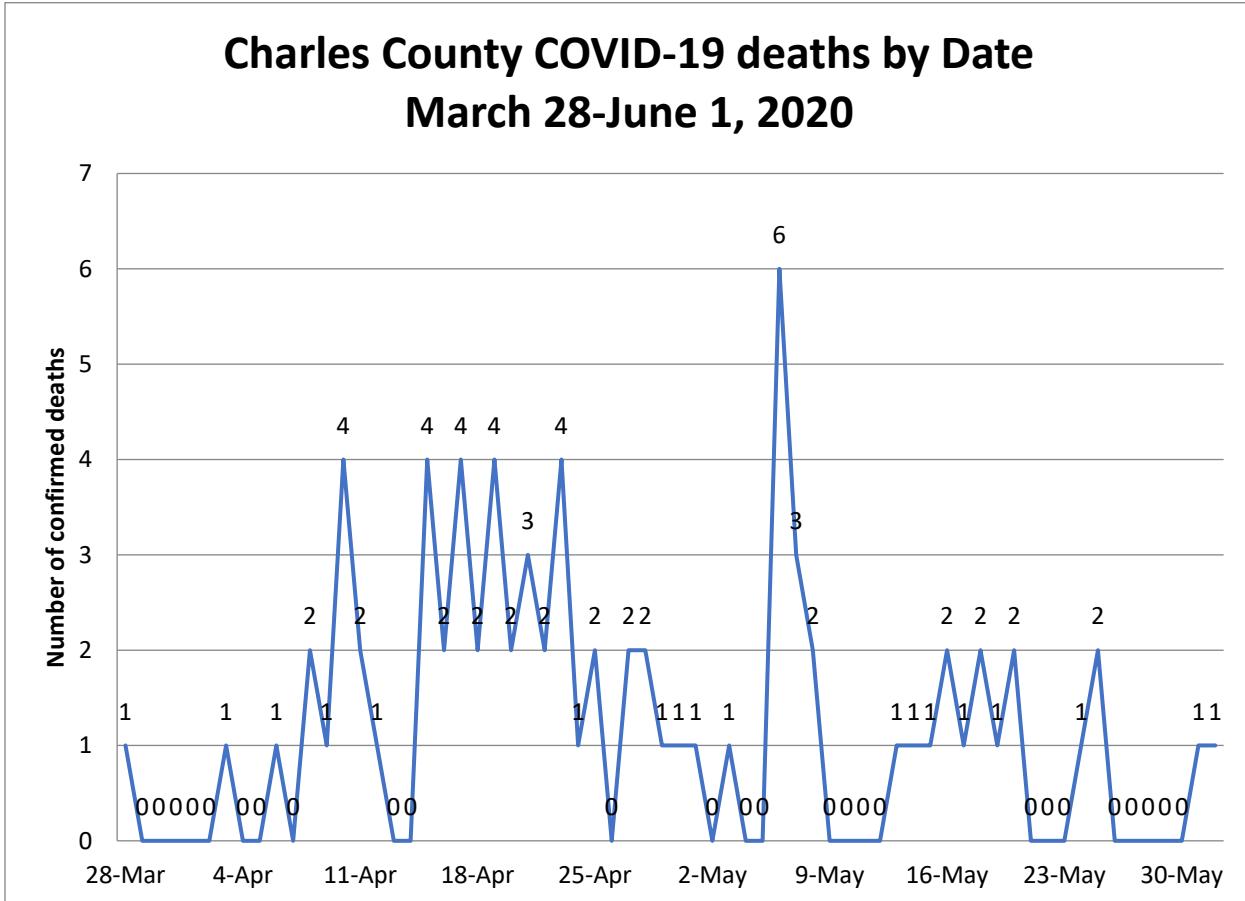

- 45 or 60% Female
- 30 or 40% Male

Race breakdown among fatalities:

- 42.7% Non-Hispanic White
- 49.3% Non-Hispanic Black
- 4.0% Non-Hispanic Asian
- 4.0% Hispanic

Location of deaths:

- Total Number of positive lab results: 1157
- Number of positive lab results in the last 24 hours: 20
- Other/Home/Emergency Room/Outpatient: 13.4%

- Total Number of negative lab results: 6811
- Number of negative lab results in last 24 hours: 238
- Total testing volume for Charles County (positive and negative): 7968
- Total Positivity Rate for all lab results thus far: 14.5% (state 14.4%)
- Positivity Rate for all lab results in last 24 hours: 8.1%
- Recovered and released from isolation: 270
- Partially recovered with improved symptoms: 58
- Known asymptomatic cases: 19
- 203 or 17.5% required hospitalization. Hospitalization rate is steadily decreasing. Peak in hospitalization rate coincided with the peak in the skilled nursing facility outbreaks.
- Among confirmed cases, 650 (56.2%) Female; 507 (43.8%) Male
- 12% Healthcare Workers
- 1.4% First Responders: EMS, Fire, Law Enforcement

- 27% have underlying health conditions
- Age range of positive COVID-19 cases: 0-100 years

Age Distribution for Charles County cases:

- Under 18 years: 37 (3.2%)
- 18-64 years: 894 (77.3%)
- 65+ years: 226 (19.5%)

Surveillance of ED Hospital Data and Urgent Care through ESSENCE

- **ESSENCE** data for urgent care utilization at Patient First in Waldorf had no alert for Monday, June 1st and a red alert for Tuesday, June 2nd. Patient volume was 53 patients on 6/1 and 70 patients on 6/2.
- Patient volume on Tuesday was the highest seen since the beginning of March. All were discharged to home for self-care.
- On 6/1, 22 patients presented with ILI or at least one COVID-19 like symptoms (42% of total patient volume). Most ILI presented for a COVID-19 test (16/22).
- Diagnoses for ILI patients on Monday included contact with and exposure to other viral communicable diseases, encounter for screening for viral disease, unspecified chest pain, malaise with low functional capacity, wheezing due to exposure to tobacco smoke, acute tonsillitis, and COVID19.
- On 6/1, there were 13 “Visit of Interest” CDC Classifier tags. They were due to COVID-19 exposure to a positive case, and all cases presented for a COVID-19 test. No other CDC Classifier tags. They completed a total of 16 COVID-19 tests on 6/1.
- On 6/2, 27 patients presented with ILI or at least one COVID-19 like symptoms (39% of total patient volume). Most ILI presented for a COVID-19 test (20/27).
- Diagnoses for ILI patients on Tuesday included contact with and exposure to other viral communicable diseases, encounter for screening for viral disease, acute frontal sinusitis, allergic rhinitis, pneumonia, unspecified chest pain, and streptococcal pharyngitis.
- On 6/2, there were 17 “Visit of Interest” CDC Classifier tags. They were due to COVID-19 exposure to a positive case, and all cases presented for a COVID-19 test. There was also a CDC Classifier tag for Pneumonia. They completed a total of 20 COVID-19 tests on 5/31.

Surveillance of EMS call data and alerts

The epidemiologist monitors the Charles County DES First Watch trigger alerts. The number of daily trigger alerts for COVID-19 cases or COVID-19 persons under investigation was 8 for 5/27.

- 5/30: 8
- 5/31: 8
- 6/1: 8
- 6/2: 16

Epidemiologist's Note Concerning Race breakdown: The data is now being captured in the MDH line lists of confirmed cases in REDCap. Data was accessed on 6/3 at 9 a.m. Please be cognizant that data may differ from numbers pulled later in the morning since new positive lab results are being received by the health department and entered into NEDSS throughout the work day. This explains any discrepancies in the total count or denominator being used to calculate each data measure.

Total: 1157 cases on 631 at 9 a.m. MDH line list assessed through REDCap:

Data on race and ethnicity changes daily as case investigations are completed and more information on demographics is updated in the electronic reporting disease system. Additionally, when there is an influx of new cases in electronic reporting disease system, data on race and ethnicity may not be available immediately for new cases since race information is not typically captured on a lab report and must be obtained during the investigation.

Race Breakdown

- Asian: 15 (1.4%)
- Black/African American: 418 (36.1%)
- White: 250 (21.6%)
- Other /2+ races/American Indian/Alaskan Native: 86 (7.4%)
- Data not available/Declined to Answer: 388 (33.5%)

Ethnicity Breakdown

- Hispanic 67 (5.8%)
- Non-Hispanic 624 (53.9%)
- Data not available/Declined to Answer: 466 (40.3%)

Nursing Home Outbreak Data: *(Confidential: Not for public dissemination)*

- Positive resident cases in Skilled Nursing Facilities/Assisted Living Facilities: 144
- Positive staff cases in Skilled Nursing Facilities/Assisted Living Facilities: 56
- Among those 144 resident cases, 109 are in skilled nursing facilities and 35 are in assisted living facilities.
- Current residents or staff who are Persons Under Investigation (PUI) in Skilled Nursing Facilities/Assisted Living Facilities: 3
- Total currently hospitalized: 3
- Deaths: 48
- Pending tests for residents or staff at Skilled Nursing Facilities/Assisted Living Facilities: 5 residents and 14 staff
- The outbreak at Genesis Waldorf was closed on 5/4 after 14 days with no new positive cases among residents or staff. The outbreak at Sagepoint was closed on 5/19 after 14 days with no new positive cases among residents or staff.

Charles County Efforts to Address the Governor's Executive Order regarding testing in Skilled Nursing Facilities:

- All 4 skilled nursing facilities in Charles County completed resident testing by Friday, 5/1. Lab results have been received for each facility. *A total of 371 residents in skilled nursing facilities were tested. 35 or 9.4% of those tests have come back positive for COVID-19.*
- Genesis La Plata and Waldorf tested their staff on Friday, 5/15. There were 2 positive staff members at Genesis Waldorf and 3 positive staff at Genesis La Plata. One case was a previous positive and has not worked since the first positive test.
- Restore tested all of their staff on Friday, 5/22. All staff results were negative.
- All Sagepoint and Genesis La Plata residents and staff will be tested by the National Guard.
- The health department will be working next to help the assisted living facilities in testing all of their staff and residents. We will start with Morningside Assisted Living since they have had an outbreak.
- The health department is seeing more cases in other congregate living settings such as group homes for those with developmental disabilities. We are recommending that all staff and residents at these facilities be tested as well.

Epidemiologist Note: Please use caution when drawing any conclusions regarding race or ethnicity. There is still a percentage where race data is not available, and information regarding this missing population cannot be assumed. Additionally, it should be noted that the greatest number of cases (60.0%) are the Waldorf zip codes of 20601, 20602, and 20603. Over half of the county population lives in those zip codes. Additionally, those zip codes have a very diverse population with minority populations comprising the majority of the zip code level population and with African Americans being the largest racial group in those zip codes.

Zip Code level data was also analyzed using the MDH line lists of confirmed cases in REDCap. Data was accessed on 6/3 at 9 a.m. (Zip code level data with counts less than 7 cases cannot be shared publicly and must remain confidential. NA: Not Available. Case rates per 1000 residents are not calculated for zip codes with less than 5 cases and for zip codes with small populations due to rate instability.)

Zip code:	Total number of positive cases	Number of new positive cases since 6/1	Number of new negative lab results in last 24 hours	Case Rate per 1000 residents
20601	207	1	20	8.40

Case Rates for Zip Codes Shared by Charles County and Prince George's County:

- 20607, Accokeek: 9.79
- 20613, Brandywine: 11.47
- These are two of the lowest rates in Prince George's County. These rates are much closer to Waldorf and White Plains case rates.

Case Rates for Other Prince George's County Zip Codes that are Near Charles County:

- 20623, Rosaryville: 9.84
- 20772, Upper Marlboro: 11.00
- 20744, Fort Washington: 12.50

Highest Case Rates among Zip Codes in Prince George's County are in the northern region of the county that surrounds Washington DC, including Hyattsville, Riverdale, Lanham, Brentwood, and Bladensburg. They are the areas of Prince George's County that are the furthest from Charles County.

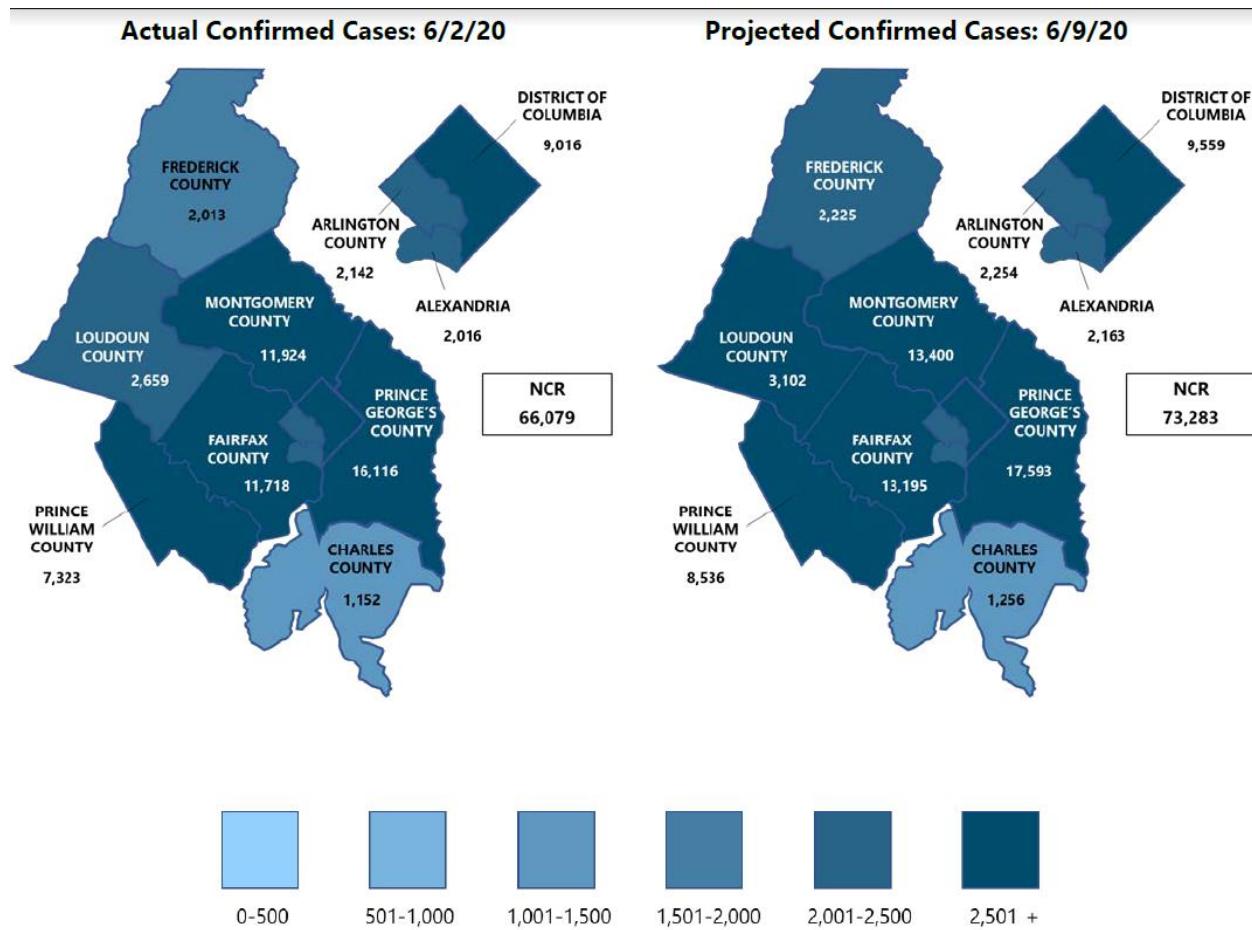

Zip Code	Case Rate per 1000 residents
20783	44.51
20782	30.86
20781	28.93
20737	39.06
20784	32.53
20706	28.22
20722	33.79
20710	26.41

Respectfully submitted by Charles County PHEP

HOSPITAL BRIEF 6-03-2020

- The Emergency Department surge tents have been taken down due to the low patient census. The surge tents will be put back up if patient census indicates the need for surge tents in the future.
- Hospital Bed Capacity = 166. Census = 77
- Hospital ICU Census = 12
- Hospital ICU in now a dedicated COVID-19 Unit, and 3 East is for ICU overflow.
- Isolation Room Capacity = 12
- Isolation Rooms Occupied = 7
- Confirmed positive cases of COVID-19 patient admissions = 11
 - Of the total eleven (11) COVID-19 positive patients, two (2) of the patients are located in the ICU. Nine (9) are located in the 3 South dedicated COVID-19 unit.
- PUI admissions = 7
- Ventilated COVID-19 positive patients = 3
- Ventilators not in use = 17
- COVID-19 related deaths = 42 (Total to Date)
- CRMC has implemented a policy that requires ALL staff, visitors (which would be very limited), and contractors of any kind to wear a mask while in the hospital at all times.
- The 3 South patient unit at CRMC is dedicated by half to COVID-19 positive patients only, and the other half of the unit is dedicated to PUI patients.
- EMS staff transport to CRMC on Tuesday, 6/02/2020: One (1) COVID-19 positive known patient. Four (4) PUI's.
- CMCR total Lab tests to date = 1830. COVID-19 positive tests = 313.

Intelligence Briefing 6-3-2020
 COVID Charles County
 Week 12

Updated Infection Numbers: As of 0933hrs.

Total worldwide: 6,411,023 **+216,515** since the 6-1-20 brief.

First Responder Numbers in Charles County: NUMBERS AS OF 6-2-2020 @1230

5 Quarantine: means exposed and they can't come to work

2 Self Isolation: means sick or tested positive

Weather:

Thursday 87-69 storms, Friday 87-71 storms

Local:

No news to report

Maryland Update:

Gov. Press Conference at 1600 6-3-2020

Region:

Over 66,079 cases in the NCR as of 0700 6-3-2020.

110,903 cases in Maryland, DC, and Virginia as of 0700 on 5-29-2020.

Large portion of VA prepare to enter phase 2

Unrest continues in the region and nationally

National:

AP infection map: <https://apnews.com/7b5a2994d351e5c1697e2c7478e2969c>

Dr. Fauci says US should have a vaccine by 2021.

Local critical infrastructure:

No outages or disruptions are reported or are appear to be likely as of today.

Predications/ Analysis:

- The cascading effects of the prolonged closures, along with community fear and anxiety have led to unintended consequences that we likely have not explored. The recent reports of increasing measles outbreaks due to children not being inoculated likely due to fear and limited availability is a terrific example. It would be wise if task forces or committees were established to better identify, develop proactive frameworks for future responds, and potential solutions prior to full reopening.
- Pediatric Multi-system Inflammatory Syndrome is receiving increasing media coverage (100+ cases in NY, 3 at WDC Children's). We are likely to see increased reports from fearful parents who have limited knowledge but high fear. Factual information spread is needed, ongoing and open channel communication with local pediatricians must start now, redistribution of PPE may be needed, and we should likely begin adding them to EOC operations.
- We appear to be on the downward side or at least seeing a leveling of this crisis. Commander should take this time to review and collect documents needed to begin the

AAR process of the tactical portion of this event. Logistics should begin placing orders to build stockpiles for the next round.

- The change at the Gov. Office re: to releasing nursing home case counts and fatalities this week is likely to create more questions than answers. In addition, it is likely to create a public uproar and increase anger.
- The length and scope of this situation have exposed large cracks in food supply chains, medical supply chains, fossil fuel industries, and other major portions of everyday life. Local leaders should begin a gap analysis and start the after-action process so they can create and modernize resiliency plans, local stockpiles, and coming up with other forward leaning solutions so when the next disaster occurs they are more self-sufficient and better prepared.
- While we have concentrated our efforts on peer support and helping our responders, a proactive approach to including families of first responders is quickly emerging. The command structure should consider a Family Support liaison or expand the Peer support branch.
- The increased discussions about opening the economy, added with the on-going conversation about health care in-equity and racial disproportionality of infections is causing increased polarization, angry, and hate. Social media is rampant with spirited discussions. It is only a matter of time before we begin to see emotions spill over into the public. The small protest we have witnessed thus far could pale in comparison to what is to come. LE should be reviewing plans, manpower, and boosting intelligence gathering to better prepare for potential situations.
- Protests over the continuing of stay at home orders, and business closures are becoming more prevalent and boisterous. Law enforcement should begin to make plans on how to track these groups and respond to events.
- First responder staffing and exposure issues will likely continue to increase. Priority messaging about PPE, manpower reduction strategies, and outside the box thinking should be continued and solutions expedited.
- FOIA and PIA requests for detailed records on infections in assisted living and nursing homes will increase as investigative reporting on this issue increases.
- Grocery stores could become a hotbed of fear and anxiety due to limiting numbers of patrons, assigning shopping days, mask requirements, and now limited meat supplies.
- As critical case in Charles County remain low (outside of nursing homes and assisted living homes), needs in other local jurisdictions are growing. Resources should be prioritized and plans should be made to share/deploy critical resources, personnel, and/or facility space to meet the needs regionally.
- The longer this crisis continues the more likely we are to experience critical events that may not be related to the COVID crisis (incidents within the incident). Those in leadership positions need to be prepared to step into dual leadership/managerial roles at a moment's notice. This requires taking care of yourself and staying up on the latest tactics, strategies and knowledge.
- Planning for crisis recovery starts as soon as the crisis begins. Monday marks the 8th weeks of this crisis, 6th week of schools being closed. Partners and stakeholders should

begin planning for what the return to the “new normal” looks like in their organization. Sharing of these plans will help each organization build more comprehensive processes.

- Over the weekend the US will likely eclipse 500,000 cases and 15,000 deaths. Md numbers will likely pass 5000 and 150 fatalities by Friday. These numbers will cause increased pressure to ratchet up rhetoric re: “stay at home orders” and could result in further sanctions and restrictions.
- As the confirmed case numbers continue to rapidly ascend the likelihood of jurisdictions issuing “travel bans” increases. Law enforcement should begin researching the constitutionality of these potential edicts and have plans in place for implantation and begin to develop a public communication strategy. Standardizing local “travel authorization documentation” should be explored by the lead jurisdiction having authority.
- Due to diverted attention, the international and domestic terrorism threat is rapidly increasing. Responders should be reminded to remain vigilant and of the DHS guidelines for spotting suspicion activities and terrorism indicators.
- As we enter into the reported peak of this situation communication, along with sharing of individual branch capability and capacity is more important now than ever. “We don’t know what we are going to need to know until we need to know it.”
- First responder organizations should begin surveying members for pre-existing conditions and other complicating medical conditions. Responders found to have pre-existing conditions should be placed in limited citizen contact roles.
- A review of the 179 countries that report COVID-19 cases, only two (South Korea and China) have somewhat “flattened the curve” of NEW infections. Both showed flattening roughly 30 to 45 days after the initial spikes. The initial spike in the US began around 3-18-2020.
- Reduced stability in the supply chain along with increased fear and anxiety can be expected with today’s “stay at home order.”
- After 3 weeks of social distancing and schools being closed non-english speaking communities within Charles County are likely feeling further isolated due to a lack of language specific communications. Direct and increased messaging to Spanish speakers is likely necessary.
- As mass transit continues to shrink in availability, plans should be made to ensure those who rely on it for essential supplies and trips have delivery resources.
- LE and EMS screening protocols should include questions about recent travel to NY, NJ, CT, and FL.
- Immediate attention is needed to direct companies and organization on the proper processes and appropriate contact to use (Donation Manager at the EOC) to donate PPE and cleaning materials to essential personnel
- The next 7 days will likely see a stabilization of a majority of the grocery supply chain. However, the potential for disruption moving forward continues to remain high.
- FOIA and PIA request from media and citizens groups will likely begin to increase the longer this event lasts. “New normal” processes need to be established as soon as possible.

- Lack of child care options will likely add to family stress. Additional resources, activity and options are needed.
- JIC staff should substantially amplify community resource communications
- As we enter the 2nd week of social distancing stress, anxiety, and fear will likely increase. Continuous reminders of patience and focusing on kindness will become increasingly important.
- Many stores restock overnight. Seniors and the vulnerable populations should be strongly encouraged to shop during the early morning hours when supplies are likely to be at their highest.
- As testing increased the confirmed cases in MD will increase. This will likely cause additional life restrictions.
- Supply chain issues will continue and likely increase as further life interruptions and travel restrictions are ordered. The possibility of violence increases as stress increases, especially at grocery stores.
- Commanders of responders and essential staff should have robust plans for potential quarantines and updated continuity of operations including plans for diminished manpower. Further, responder organizations should begin reviewing existing integration plans with the National Guard.
- Obtaining medical supplies and PPE will continue to be an issue for the foreseeable future. All services should use the command ordering process so orders can be tracked.
- The community of Charles County is showing increased signs of pulling together and assisting one another. The JIC should continue to encourage civility and increase positive press of good news stories occurring throughout our community.

“The most effective leaders in crises ensure that someone else is managing the present well, while focusing their attention on leading beyond the crisis toward a more promising future” (Nutley and Marcus, 2019, Harvard Business Review)

Charles County Public Schools Briefing 6-3-2020
COVID Charles County

48-hour Priorities:

- Maintaining instructional continuity
- Expanding and maintaining food service
- Expanding and maintaining WiFi service
- Develop a plan for closing SY 19-20

Meals:

Tuesday, 6/2/20 CCPS served 3405 meals at the 11 meal distribution sites. The total was -1521 from the meals served on Monday, 6/1/20.

Meal sites located at high schools are closed on the day of their graduation events. Sites will be closed at St. Charles on June 3. All other meal sites will operate as usual. CCPS is working on arrangements to implement the summer meals program Lunch on Us. CCPS will share details as they are finalized.

Closure:

Nothing new to report.

State Superintendent of Schools Karen Salmon announced all Maryland public schools will remain closed until the end of the 2019-20 school year. Distance learning will continue for Charles County Public Schools students. All schools, buildings and centers will remain closed to the public.

Instruction:

Grausitions this week will be La Plata and St. Charles high schools on June 3, and North Point High School on June 4.

The final round of learning packets for elementary school students will be at meal sites starting May 28. There are no additional packets for secondary students. Starting on June 1, middle and high school teachers will use Teams for the final two weeks of instruction. Teams lessons are canceled for high school students on the day of their school's in-person graduation event.

As Charles County Public Schools (CCPS) moves into the fifth and sixth weeks of distance learning, new assignments are now available for students online at www.ccboe.com. Paper packets with the new material are available at our 11 meal distribution sites. New paper packets are being distributed May 18-29.

Community Wifi:

Nothing new to report.

Access point equipment has not arrived in shipping as of yet. No construction on this project has begun.

All four sites are up and running and seeing use. CCPS in process of 3 other additional WiFi sites, will enable students and staff to access CCPS network not just the internet. Installation will begin once equipment arrives at Dr. Mudd Elementary, Somers Middle School, and Gail Bailey Elementary School, adding to the other four hot spots of Piccowaxen Middle School, Henson Middle School, TC Martin Elementary School, and Mt. Hope Nanjemoy Elementary School.
