

Charles County  
Department  
of  
Health

## OPERATIONAL PERIOD

# INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name</b>  Charles County      COVID-19	<b>2. Operational Period</b>	<b>Date From:</b> 6/16/20	<b>Date To:</b> 6/23/20	<b>Time From:</b> 8:00	<b>Time To:</b> 8:00
---	------------------------------	---------------------------	-------------------------	------------------------	----------------------

**3. Objectives**

- A. Maximize the safety and overall health and well-being, including mental health of the residents, county employees, and responders, throughout this incident. Minimize the effects resulting from this incident on all personnel.
- B. Conduct surveillance of COVID-19 cases in collaboration with the health department, hospital, physicians, and other health care providers.
- C. Maintain timely, accurate and uniform communications with residents, employees and first responders as well as partners in the tri-County and National Capital Region and the state of Maryland.
- D. Prepare for and handle the human reaction crisis contingencies in long terms.
- E. Prepare for long term order maintenance.
- F. Prepare for and sustain our communities' hierarchy of needs throughout this incident.
- G. Ensure all practical steps to "Slow the Spread" of transmission of COVID-19.
- H. Prepare for the New Normal.
- I. Conduct an After Action Analysis including all divisions and functions of the COVID-19 response.

**4. Operational Period Command Emphasis**  

**After Action Analysis- Send in your 5 Ups and 5 Downs to  
 DESPlanning@CharlesCountyMD.gov**

**General Situational Awareness**  

"Remember to wipe the wheel and other high touch items such as screens and knobs in your automobile's interior!"

**5. Site Safety Plan Required?**      ☐ Yes    ☒ No  
**Approved Site Safety Plan(s) Located at:**

# How to safely clean your car's interior from COVID-19\*

Soap, water and alcohol solutions such as disinfectant wipes that contain at least 70% isopropyl alcohol are the most effective household products to kill the coronavirus according to the Centers for Disease Control and Prevention.

**Just like washing your hands for 20 seconds, take your time cleaning your car.**

**DO** keep these products in your car

- Hand sanitizer
- Disinfectant wipes
- Mask and disposable gloves

**DO** use these products to clean your car

- Disposable gloves
- Soap
- Bucket of water and cloth

**DO NOT** use these products to clean your car's interior

- Bleach products
- Hydrogen peroxide products
- Ammonia-based products

## Interior surfaces to clean:

High touch areas like outside and inside door handles, steering wheel, gear shift, turn and wiper signal levers, any buttons on your radio and climate control unit, seat upholstery, seat belts, mirrors, driver and passenger armrests, grab handles and seat adjustment levers on both driver and passenger seats.

Soap is the safest for fabrics and leather seats. Gently clean the upholstery, making sure not to scrub too aggressively. Use small amounts of water, so you don't soak through to the cushions beneath. For leather seats, conditioner applied afterward is recommended.

Steering wheel can have four times the germs than a public toilet seat.

## Protecting yourself and others in a car:

It's impossible to social distance in the car so the next time you're in a car with others, open up the windows at least 3 inches to increase ventilation and lower potential virus levels.

Have windows open for good ventilation

Fresh air

# Cómo limpiar el interior de su auto de forma segura para prevenir el COVID-19\*

Los productos domésticos más efectivos para eliminar el coronavirus según los Centros para el Control y la Prevención de Enfermedades son el jabón, el agua, las soluciones de alcohol y toallitas desinfectantes que contienen al menos un 70% de alcohol isopropílico.

- Limpie y desinfecte las superficies del vehículo cuando transporte pasajeros aparentemente enfermos.
- Al usar productos químicos de limpieza, mantenga abiertas las puertas y ventanas del auto.
- Utilice guantes desechables y cualquier otro elemento de protección necesario para limpiar.
- Siempre evite tocarse la nariz, boca u ojos.

## TENGA estos productos en su auto

- Desinfectante para manos
- Toallitas desinfectantes
- Mascarilla y guantes desechables

## USE estos productos para limpiar su auto

- Guantes desechables
- Jabón
- Recipiente de agua y trapo

## NO USE estos productos para limpiar el interior de su auto

- Productos con cloro
- Productos de peróxido de hidrógeno
- Productos con amoníaco

## Superficies interiores que deben limpiarse:

Limpie las superficies duras con agua y detergente o jabón y después con un desinfectante. Para desinfectar, use toallitas con alcohol o aerosoles que posean al menos un 70% de alcohol.

- manijas de puertas interiores y exteriores
- apoyabrazos
- hebillas del cinturón de seguridad
- botones de luces y aire
- volante
- palanca de cambios
- puertas y ventanas
- pantallas táctiles
- botones de la radio

Los asientos de tela se pueden limpiar con agua y jabón. Remueva cualquier suciedad visible y límpielos con productos de limpieza que puedan ser utilizados en estas superficies.

## Cómo Protegerse y proteger a los demás dentro del auto:

Cuando esté dentro de un auto con otras personas, abra las ventanas al menos 3 pulgadas para mejorar la ventilación y disminuir los niveles potenciales de propagación del virus. El conductor y los pasajeros deben usar mascarillas.

## Una vez que haya terminado de limpiar su auto:

**Retire y deseche** cualquier guante, bata y otros elementos de protección desechables utilizados al limpiar y desinfectar el auto.

Si no utilizó una bata desechable, **lave inmediatamente la ropa utilizada** durante la limpieza y desinfección utilizando la opción de lavado con agua caliente.

Después de quitarse los guantes y otros elementos de protección, **lávese las manos inmediatamente con jabón y agua por al menos 20 segundos**, o utilice un desinfectante a base de alcohol con al menos 60% de alcohol.

**Lávese las manos** después de manipular ropa sucia.

# **PUBLIC HEALTH BRANCH BRIEFING**

## **COVID-19 PANDEMIC RESPONSE**

June 15, 2020

### **GENERAL REPORTING INFORMATION**

#### **INFECTIOUS DISEASE**

##### **CASE COUNT—CHARLES COUNTY**

As of 6/15/2020, total case count for Charles County is **1,278**.

- *The line list with confirmed case counts for Charles County is continuously updated as lab reports are received from MDH, hospitals, and commercial laboratories.*
- *Contact tracing efforts are continuous with a focus on healthcare workers, EMS, and police.*

#### **CALL CENTER UPDATE**

- Operation time: 0800 to 2200.
- The numbers to call remain the same: 301.609.6717 or 301.609.6777
- Call Center volume is approximately 30 to 60 call per day.

#### **MEDIA, SOCIAL MEDIA AND WEBSITE**

- PIO working on re-opening coalition multimedia campaign.

#### **PARTNER/STAKEHOLDER OUTREACH**

##### **LTC/AL**

- The Long-Term Care and Assisted Living call will be held June 18 at 3 p.m. by CCDOH nurse liaisons.

##### **ALL-PARTNER**

- Now included in weekly coalition webinar with Dr. Haft.

#### **MARYLAND EPIDEMIOLOGY & SURVEILLANCE PROFILE**

##### **Case Investigation, Surveillance, and Infectious Disease Response (D, Blythe)**

- 1) **Latest case counts** – total: 62,032 (359,076 negative)
- 2) **New cases:** 331
  - a) **Age distribution:**
    - i) under 18 years - 2 %
    - ii) in 19-64 age range 74%
    - iii) in 65+ age range 24%
  - b) **Geographic distribution:**
    - i) National Capital 53%
    - ii) Baltimore Metro area 41%
    - iii) Eastern Shore 3%
    - iv) Southern 2%
    - v) Western 1%
  - c) Of cases, 53% female; 47% male
  - d) Hospitalizations (-6 last 24 hours); total current 745; total ever 10,222

- e) Deaths -- Total 2,817 (6 last 24 hours)
- f) Release from isolation – 4,567

**CONFIDENTIAL – (INFORMATION BELOW IS FOR CORE PLANNING GROUP ONLY)**

## **RESOURCE DISTRIBUTION**

- 7 orders received were received over the weekend
- A new PPE from state arrived today.

## **VOLUNTEERS**

### **MARYLAND MEDICAL RESERVE CORPS**

- 8 volunteers assisted with the mission to personally deliver food service re-opening information/guidance to over 400 food establishments over a 4-day period (Jun 1-4)  
Total hours = 57

### **CAREGIVER SERVICE CORPS**

- Nothing new to report.

## **TESTING**

### **VEIP TESTING SITE UPDATE**

- Tested to Date: 1,501
- The Waldorf VEIP operation runs Tuesday/Thursday from 8:00 am - Noon by appointment only. Next test date is Tuesday, June 16.
- The VEIP testing teams this week will be comprised of:
  - 5 Charles County Health Department staff
  - 4 School Nurses
  - 4 Maryland Responds Volunteers
  - 1 Charles County Government employee volunteer
  - 2 VEIP Staff
  - 2 Maryland State Police
  - 1 Natural Resource Police
  - 3 State Highway Administration

## **CHARLES COUNTY EPIDEMIOLOGY & SURVEILLANCE PROFILE**

**Epidemiologist's Note:** *All data presented in the Charles County profile is a snapshot of the COVID-19 situation at one specific time period. Please be cognizant that data may differ from numbers presented later in the day since new positive lab results are being received by the state and local health department and entered into NEDSS electronic surveillance system throughout the work day. This explains any discrepancies in the total count or denominator being used to calculate each data measure; therefore, the date and time of data extraction for each data source is provided for your reference.*

**As of 6/15 at 9 a.m., total case count for Charles County was 1278 cases.** *(There was a total of 24 new cases since 6/12).*

**There have been 81 confirmed deaths associated with COVID-19.** This equates to 6.3% of total confirmed cases. The Charles County death rate of 6.3% is higher than the MD state average death rate of 4.5%. However, it should be noted that the majority of deaths in Charles County are associated with outbreaks in skilled nursing facilities. The death rate for Charles County is going down from a high of 7.3% now that the outbreaks at skilled nursing facilities have been contained and/or reduced. We continue to see nursing homes related deaths due to the current outbreak at the Charlotte Hall Veterans Home where some Charles County residents reside. There were 2 probable COVID-19 deaths. COVID-19 is listed as the cause of death, but laboratory testing has not yet confirmed.

**Average age of fatalities:** 76.7 years

### **Age Distribution of Fatalities:**

- 0-39 years: 0
- 40-69 years: 18 (21.7%)
- 70-79 years: 36 (43.4%)
- 80+ years: 29 (34.9%)

### **Gender breakdown among fatalities:**

- 47 or 56.6% Female
- 36 or 43.4% Male

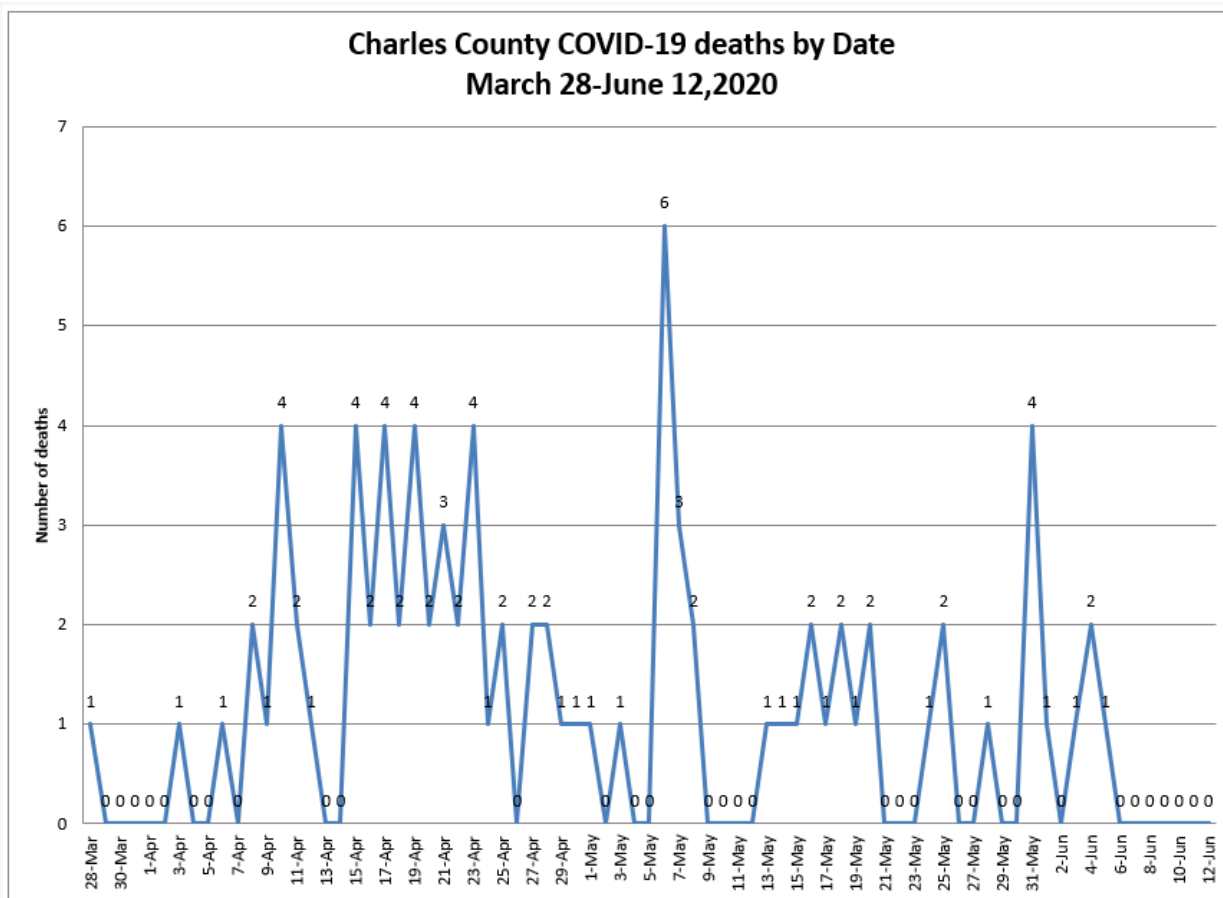

### **Race breakdown among fatalities:**

- 43.4% Non-Hispanic White
- 49.4% Non-Hispanic Black
- 3.6% Non-Hispanic Asian
- 3.6% Hispanic

### **Location of deaths:**

- Hospital Inpatient: 51 or 61.4%
- Nursing Home: 21 or 25.3%
- Other/Home/Emergency Room/Outpatient: 11 or 13.3%

- Total Number of positive lab results: 1278
- Number of positive lab results since 6/12: 24
- Total Number of negative lab results: 8524
- Number of negative lab results since 6/12: 407
- Total testing volume for Charles County (positive and negative): 9802
- Total Positivity Rate for all lab results thus far: 13.0% (state 12.4%)
- Positivity Rate for all lab results in last 24 hours: 5.6%
- Average number of days from specimen collection date to reporting to public health for all positive and negative lab results (N=1292) between June 4-10: 2.40 days
- Average number of days from specimen collection date to reporting to public health for all positive lab results (N=71) between June 4-10: 2.97 days
- Data on average number of days from specimen collection date to public health reporting will be done on a weekly basis and reported on the Friday report.
- Recovered and released from isolation: 332
- Partially recovered with improved symptoms: 57
- Known asymptomatic cases: 34
- 222 or 17.3% required hospitalization. Hospitalization rate is steadily decreasing. Peak in

hospitalization rate coincided with the peak in the skilled nursing facility outbreaks.

- Among confirmed cases, 716 (56.0%) Female; 562 (44%) Male
- 11% Healthcare Workers
- 1.0% First Responders: EMS, Fire, Law Enforcement
- 30% have underlying health conditions
- Age range of positive COVID-19 cases: 0-100 years

#### **Age Distribution for Charles County cases:**

- Under 18 years: 48 (3.8%)
- 18-64 years: 992 (77.6%)
- 65+ years: 238 (18.6%)

#### **Surveillance of ED Hospital Data and Urgent Care through ESSENCE**

- **ESSENCE** data for urgent care utilization at Patient First in Waldorf had no alert for Saturday, June 13th and no alert for Sunday, June 14th. Patient volume was 44 patients on 6/13 and 34 patients on 6/14. Patient volume drops slightly over the weekend and will increase on weekdays. All were discharged to home for self-care.
- On 6/13, 19 patients presented with ILI or at least one COVID-19 like symptoms (43% of total patient volume). 15 out of 19 ILI were there for either a COVID-19 test or COVID-19 Antibody test. Diagnoses for ILI patients on Saturday included other allergic rhinitis, contact with and exposure to other viral communicable diseases, encounter for screening for other viral diseases, encounter for screening for respiratory tuberculosis, COVID-19, and acute maxillary sinusitis. There were 17 Visit of Interest tags. 15 cases had exposure to a COVID-19 positive case and presented for a COVID-19 test. The other 2 Visit of Interest tags were for vaccines: one tetanus and one varicella. They completed 14 COVID-19 tests and 1 antibody test on 6/13.
- On 6/14, 11 patients presented with ILI or at least one COVID-19 like symptoms (32% of total patient volume). 8 ILI presented for a COVID-19 test or antibody test (73%). Diagnoses for ILI patients on Sunday included contact with and exposure to other viral communicable diseases, postnasal drip, other allergy initial encounter, nasal congestion, and mild intermittent asthma with exacerbation. On 6/14, there were 7 “Visit of Interest” CDC Classifier tags that were due to COVID-19 exposure to a positive case, and all cases presented for a COVID-19 test. No other CDC Classifier tags. They completed a total of 7 COVID-19 tests and 1 COVID-19 antibody tests on 6/14.

#### **Surveillance of EMS call data and alerts**

The epidemiologist monitors the Charles County DES First Watch trigger alerts. The number of daily trigger alerts for COVID-19 cases or COVID-19 persons under investigation was:

- 6/13: 3
- 6/14: 9

**Epidemiologist's Note Concerning Race breakdown:** *The data is now being captured in the MDH line lists of confirmed cases in REDCap. Data was accessed on 6/15 at 9 a.m. Please be cognizant that data may differ from numbers pulled later in the morning since new positive lab results are being received by the health department and entered into NEDSS throughout the work day. This explains any discrepancies in the total count or denominator being used to calculate each data measure.*

**Total: 1,278 cases on 6/15 at 9 a.m. MDH line list assessed through REDCap:** *Data on race and ethnicity changes daily as case investigations are completed and more information on demographics is updated in the electronic reporting disease system. Additionally, when there is an influx of new cases in electronic reporting disease system, data on race and ethnicity may not be available immediately for new cases since race information is not typically captured on a lab report and must be obtained during the investigation.*

#### **Race Breakdown**

- Asian: 15 (1.2%)
- Black/African American: 434 (34.0%)
- White: 260 (20.3%)
- Other /2+ races/American Indian/Alaskan Native: 90 (7.0%)
- Data not available/Declined to Answer: 479 (37.5%)

#### **Ethnicity Breakdown**

- Hispanic 66 (5.1%)
- Non-Hispanic 626 (49.0%)
- Data not available/Declined to Answer: 586 (45.9%)

#### **Nursing Home Outbreak Data: (Confidential: Not for public dissemination)**

- Positive resident cases in Skilled Nursing Facilities/Assisted Living Facilities: 144
- Positive staff cases in Skilled Nursing Facilities/Assisted Living Facilities: 57
- Among those 144 resident cases, 109 are in skilled nursing facilities and 35 are in assisted living facilities.
- Current residents or staff who are Persons Under Investigation (PUI) in Skilled Nursing Facilities/Assisted Living Facilities: 3
- Total currently hospitalized: 3
- Deaths: 48
- Pending tests for residents or staff at Skilled Nursing Facilities/Assisted Living Facilities: 3 residents and 6 staff
- The outbreak at Genesis Waldorf was closed on 5/4 after 14 days with no new positive cases among residents or staff. The outbreak at Sage Point was closed on 5/19 after 14 days with no new positive cases among residents or staff.

**Charles County Efforts to Address the Governor's Executive Order regarding testing in Skilled Nursing Facilities:**

- All 4 skilled nursing facilities in Charles County completed resident testing by Friday, 5/1. Lab results have been received for each facility. A total of 371 residents in skilled nursing facilities were tested. 35 or 9.4% of those tests have come back positive for COVID-19.
- Genesis La Plata and Waldorf tested their staff on Friday, 5/15. There were 2 positive staff members at Genesis Waldorf and 3 positive staff at Genesis La Plata. One case was a previous positive and has not worked since the first positive test.
- Restore tested all of their staff on Friday, 5/22. All staff results were negative.
- All Sagepoint and Genesis La Plata residents and staff was tested by the National Guard. All staff results from Genesis La Plata have come back negative. That outbreak will be closed.
- The health department will be working next to help the assisted living facilities in testing all of their staff and residents. We will start with Morningside Assisted Living since they have had an outbreak.
- The health department is seeing more cases in other congregate living settings such as group homes for those with developmental disabilities. We are recommending that all staff and residents at these facilities be tested as well.
- Both Genesis La Plata and Genesis Waldorf have agreed to do regular testing of residents and staff on a voluntary basis.

**Epidemiologist Note:** Please use caution when drawing any conclusions regarding race or ethnicity. There is still a percentage where race data is not available, and information regarding this missing population cannot be assumed. Additionally, it should be noted that the greatest number of cases (60.5%) are the Waldorf zip codes of 20601, 20602, and 20603. Over half of the county population lives in those zip codes. Additionally, those zip codes have a very diverse population with minority populations comprising the majority of the zip code level population and with African Americans being the largest racial group in those zip codes.

Zip Code level data was also analyzed using the MDH line lists of confirmed cases in REDCap. Data was accessed on 6/10 at 9 a.m. *(Zip code level data with counts less than 7 cases cannot be shared publicly and must remain confidential. NA: Not Available. Case rates per 1000 residents are not calculated for zip codes with less than 5 cases and for zip codes with small populations due to rate instability.)*

**Confirmed cases by zip code:**

Zip code:	Total number of positive cases	Number of new positive cases since 6/12	Number of new negative lab results since 6/12	Case Rate per 1000 residents
20601	239	8	63	9.69
20602	243	5	72	9.98
20603	291	5	81	9.94
20604	3	0	1	NA
20611	6	0	1	4.64
20613	23	0	0	NA
20616	48	1	10	8.20
20617	1	0	2	NA
20622	15	0	0	3.88
20625	0	0	3	NA
20632	2	0	4	NA

20664	21	0	7	7.37
20675	10	0	3	5.98
20677	11	0	5	4.74
20693	3	0	2	2.76
20695	82	3	47	12.36

- **Charles County Cases Rates by Date**

*Case rates are only calculated for zip codes with 5 or more confirmed COVID-19 Cases.*

COVID-19 Positive Case Rate per 1000 residents for each zip code with 5 or more confirmed cases:	6/1	6/3	6/5	6/8	6/9	6/10	6/12	6/15
20601	8.36	8.40	8.61	8.94	9.11	9.19	9.36	9.69
20602	8.74	8.94	9.22	9.38	9.34	9.62	9.74	9.98
20603	9.22	9.36	9.60	9.67	9.67	9.74	9.77	9.94
20611	4.64	4.64	4.64	4.64	4.64	4.64	4.64	4.64
20616	6.488	7.34	7.51	7.85	7.85	7.85	8.02	8.20
20622	NA	3.06	3.06	3.47	3.47	3.67	3.88	3.88
20637	5.35	5.35	5.72	5.72	5.90	5.90	6.27	6.27
20640	4.22	4.41	4.50	4.60	4.60	4.69	4.69	4.69
20646	6.72	7.20	7.52	7.78	7.78	7.94	8.05	8.05
20662	5.11	5.79	6.13	6.13	6.13	6.13	6.13	6.13
20664	6.70	7.37	7.37	7.37	7.37	7.37	7.37	7.37
20675	5.39	5.39	5.39	5.39	5.98	5.98	5.98	5.98
20677	5.17	5.17	5.17	5.17	4.74	4.74	4.74	4.74
20695	10.16	10.89	11.04	11.19	11.33	11.33	11.92	12.36

**Case Rates for Zip Codes Shared by Charles County and Prince George's County:**

- 20607, Accokeek: 10.61
- 20613, Brandywine: 11.97
- These are two of the lowest rates in Prince George's County. These rates are much closer to Waldorf and White Plains case rates.

**Case Rates for Other Prince George's County Zip Codes that are Near Charles County:**

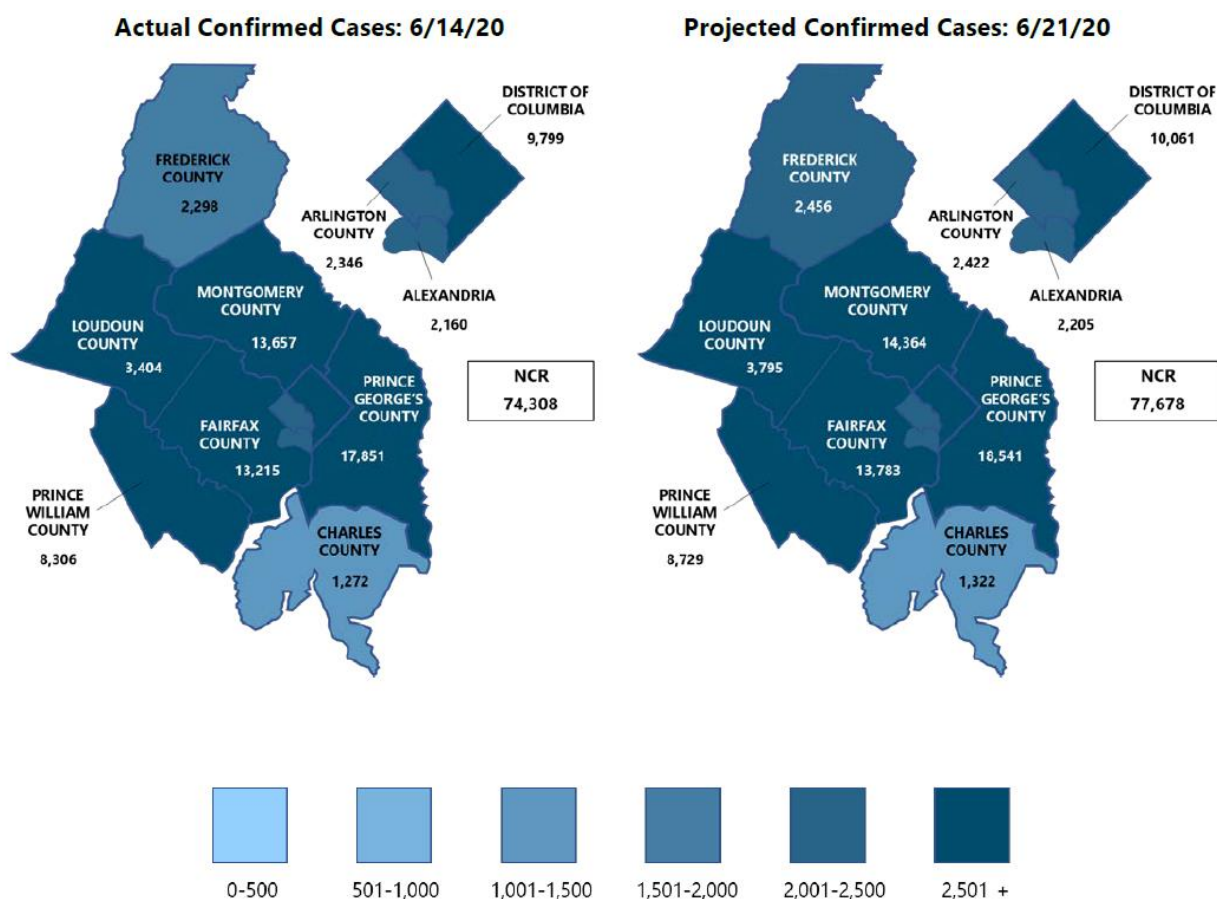

- 20623, Rosaryville: 10.93
- 20772, Upper Marlboro: 11.87
- 20744, Fort Washington: 13.78

Highest Case Rates among Zip Codes in Prince George's County are in the northern region of the county that surrounds Washington DC, including Hyattsville, Riverdale, Lanham, Brentwood, and Bladensburg. They are the areas of Prince George's County that are the furthest from Charles County.

Zip Code	Case Rate per 1000 residents
20783	48.78
20782	34.36
20781	32.17
20737	44.53
20784	36.23
20706	30.65
20722	37.47
20710	28.56

## **MISCELLANEOUS**

**ADDITIONAL INFORMATION:** *Here are the MCR MWCOG case and medical demand projections for June.*

#### Medical Demand Projections:

*Respectfully submitted by Charles County PHEP*

**HOSPITAL BRIEF 6-15-2020**

- The Emergency Department surge tents have been taken down due to the low patient census. The surge tents will be put back up if patient census indicates the need for surge tents in the future.
- Hospital Bed Capacity = 166. Census = 71
- Hospital ICU Census = 12
- Hospital ICU is now a dedicated COVID-19 Unit, and 3 East is for ICU overflow.
- Isolation Room Capacity = 12
- Isolation Rooms Occupied = 8
- Confirmed positive cases of COVID-19 patient admissions = 6
  - Of the total six (6) COVID-19 positive patients all are located in the ICU Dedicated COVID-19 Unit.
  -
- PUI admissions = 6
- Ventilated COVID-19 positive patients = 2
- Ventilators not in use = 18
- COVID-19 related deaths = 42 (Total to Date)
- CRMC has implemented a policy that requires ALL staff, visitors (which would be very limited), and contractors of any kind to wear a mask while in the hospital at all times.
- The 3 South patient unit at CRMC is dedicated by half to COVID-19 positive patients only, and the other half of the unit is dedicated to PUI patients.
- EMS staff transport to CRMC on Sunday, 6/14/2020 = One (1) COVID-19 positive patient (known).
- CMCR total Lab tests to date = 2147. COVID-19 positive tests = 331.

Intelligence Briefing 6-15-2020  
COVID Charles County  
Week 14

**Updated Infection Numbers:** As of 1133hrs.

Total worldwide: 7,949,973 **+402,271 since the 6-12-20 brief.**

19 state see increases in case counts

Dr. Fauci is quoted as saying normalcy may not return for years.

**Local critical infrastructure:**

No outages or disruptions are reported or are appear to be likely as of today.

**Predications/ Analysis:**

- The cascading effects of the prolonged closures, along with community fear and anxiety have led to unintended consequences that we likely have not explored. The recent reports of increasing measles outbreaks due to children not being inoculated likely due to fear and limited availability is a terrific example. It would be wise if task forces or committees were established to better identify, develop proactive frameworks for future responds, and potential solutions prior to full reopening.
- Pediatric Multi-system Inflammatory Syndrome is receiving increasing media coverage (100+ cases in NY, 3 at WDC Children's). We are likely to see increased reports from fearful parents who have limited knowledge but high fear. Factual information spread is needed, ongoing and open channel communication with local pediatricians must start now, redistribution of PPE may be needed, and we should likely begin adding them to EOC operations.
- We appear to be on the downward side or at least seeing a leveling of this crisis. Commander should take this time to review and collect documents needed to begin the AAR process of the tactical portion of this event. Logistics should begin placing orders to build stockpiles for the next round.

- The change at the Gov. Office re: to releasing nursing home case counts and fatalities this week is likely to create more questions than answers. In addition, it is likely to create a public uproar and increase anger.
- The length and scope of this situation have exposed large cracks in food supply chains, medical supply chains, fossil fuel industries, and other major portions of everyday life. Local leaders should begin a gap analysis and start the after-action process so they can create and modernize resiliency plans, local stockpiles, and coming up with other forward leaning solutions so when the next disaster occurs they are more self-sufficient and better prepared.
- While we have concentrated our efforts on peer support and helping our responders, a proactive approach to including families of first responders is quickly emerging. The command structure should consider a Family Support liaison or expand the Peer support branch.
- The increased discussions about opening the economy, added with the on-going conversation about health care in-equity and racial disproportionality of infections is causing increased polarization, angry, and hate. Social media is rampant with spirited discussions. It is only a matter of time before we begin to see emotions spill over into the public. The small protest we have witnessed thus far could pale in comparison to what is to come. LE should be reviewing plans, manpower, and boosting intelligence gathering to better prepare for potential situations.
- Protests over the continuing of stay at home orders, and business closures are becoming more prevalent and boisterous. Law enforcement should begin to make plans on how to track these groups and respond to events.
- First responder staffing and exposure issues will likely continue to increase. Priority messaging about PPE, manpower reduction strategies, and outside the box thinking should be continued and solutions expedited.
- FOIA and PIA requests for detailed records on infections in assisted living and nursing homes will increase as investigative reporting on this issue increases.
- Grocery stores could become a hotbed of fear and anxiety due to limiting numbers of patrons, assigning shopping days, mask requirements, and now limited meat supplies.
- As critical case in Charles County remain low (outside of nursing homes and assisted living homes), needs in other local jurisdictions are growing. Resources should be prioritized and plans should be made to share/deploy critical resources, personnel, and/or facility space to meet the needs regionally.
- The longer this crisis continues the more likely we are to experience critical events that may not be related to the COVID crisis (incidents within the incident). Those in leadership positions need to be prepared to step into dual leadership/managerial roles at a moment's notice. This requires taking care of yourself and staying up on the latest tactics, strategies and knowledge.
- Planning for crisis recovery starts as soon as the crisis begins. Monday marks the 8<sup>th</sup> weeks of this crisis, 6<sup>th</sup> week of schools being closed. Partners and stakeholders should begin planning for what the return to the "new normal" looks like in their organization. Sharing of these plans will help each organization build more comprehensive processes.

- Over the weekend the US will likely eclipse 500,000 cases and 15,000 deaths. Md numbers will likely pass 5000 and 150 fatalities by Friday. These numbers will cause increased pressure to ratchet up rhetoric re: “stay at home orders” and could result in further sanctions and restrictions.
- As the confirmed case numbers continue to rapidly ascend the likelihood of jurisdictions issuing “travel bans” increases. Law enforcement should begin researching the constitutionality of these potential edicts and have plans in place for implantation and begin to develop a public communication strategy. Standardizing local “travel authorization documentation” should be explored by the lead jurisdiction having authority.
- Due to diverted attention, the international and domestic terrorism threat is rapidly increasing. Responders should be reminded to remain vigilant and of the DHS guidelines for spotting suspicion activities and terrorism indicators.
- As we enter into the reported peak of this situation communication, along with sharing of individual branch capability and capacity is more important now than ever. “We don’t know what we are going to need to know until we need to know it.”
- First responder organizations should begin surveying members for pre-existing conditions and other complicating medical conditions. Responders found to have pre-existing conditions should be placed in limited citizen contact roles.
- A review of the 179 countries that report COVID-19 cases, only two (South Korea and China) have somewhat “flattened the curve” of NEW infections. Both showed flattening roughly 30 to 45 days after the initial spikes. The initial spike in the US began around 3-18-2020.
- Reduced stability in the supply chain along with increased fear and anxiety can be expected with today’s “stay at home order.”
- After 3 weeks of social distancing and schools being closed non-english speaking communities within Charles County are likely feeling further isolated due to a lack of language specific communications. Direct and increased messaging to Spanish speakers is likely necessary.
- As mass transit continues to shrink in availability, plans should be made to ensure those who rely on it for essential supplies and trips have delivery resources.
- LE and EMS screening protocols should include questions about recent travel to NY, NJ, CT, and FL.
- Immediate attention is needed to direct companies and organization on the proper processes and appropriate contact to use (Donation Manager at the EOC) to donate PPE and cleaning materials to essential personnel
- The next 7 days will likely see a stabilization of a majority of the grocery supply chain. However, the potential for disruption moving forward continues to remain high.
- FOIA and PIA request from media and citizens groups will likely begin to increase the longer this event lasts. “New normal” processes need to be established as soon as possible.
- Lack of child care options will likely add to family stress. Additional resources, activity and options are needed.

- JIC staff should substantially amplify community resource communications
- As we enter the 2<sup>nd</sup> week of social distancing stress, anxiety, and fear will likely increase. Continuous reminders of patience and focusing on kindness will become increasingly important.
- Many stores restock overnight. Seniors and the vulnerable populations should be strongly encouraged to shop during the early morning hours when supplies are likely to be at their highest.
- As testing increased the confirmed cases in MD will increase. This will likely cause additional life restrictions.
- Supply chain issues will continue and likely increase as further life interruptions and travel restrictions are ordered. The possibility of violence increases as stress increases, especially at grocery stores.
- Commanders of responders and essential staff should have robust plans for potential quarantines and updated continuity of operations including plans for diminished manpower. Further, responder organizations should begin reviewing existing integration plans with the National Guard.
- Obtaining medical supplies and PPE will continue to be an issue for the foreseeable future. All services should use the command ordering process so orders can be tracked.
- The community of Charles County is showing increased signs of pulling together and assisting one another. The JIC should continue to encourage civility and increase positive press of good news stories occurring throughout our community.

“The most effective leaders in crises ensure that someone else is managing the present well, while focusing their attention on leading beyond the crisis toward a more promising future” (Nutley and Marcus, 2019, Harvard Business Review)

Respectfully submitted by Jason Stoddard

# Law Enforcement Branch Briefing

## COVID-19 Charles County IMT

June 15<sup>th</sup>, 2020

### **Buildings:**

Charles County Sheriff's Office: District 1 Lobby is closed for scheduled remodeling. The District 1 clerks have moved to the CCDC Annex building in the same parking area and that lobby is open as normal.

Maryland State Police: Restricted to public

Charles County Public Schools Briefing 6-15-2020  
COVID Charles County

**48-hour Priorities:**

- Maintaining instructional continuity
- Expanding and maintaining food service
- Expanding and maintaining WiFi service
- Develop a plan for closing SY 19-20

**Meals:**

Friday, 6/12/20 CCPS served 3033 meals at the 11 meal distribution sites. The total was -852 from the meals served on Thursday, 6/11/20. Our total unofficial meal count for the week was 15,411 meals and our meals served since March 16 total 317,734.

**NO MEAL DISTRIBUTION SATURDAY and SUNDAY.**

**The Summer Meals Program** is a free meals program for all children and youth ages 18 and younger who live in Charles County.

Due to the COVID-19 social distancing requirements, Charles County Public Schools (CCPS) will continue to serve Grab and Go meals at our eleven existing meal sites beginning Friday, June 12 through Tuesday, June 30 between the hours of 11:00 a.m. to 1:00 p.m. CCPS will serve Summer Meals throughout the summer months until August 14; however, we are awaiting direction from the United States Department of Agriculture (USDA) regarding our Summer Meals Program beyond **June 30. More information will follow.**

CCPS meal distribution sites can provide parents food without their child being present. However, the pick-up person must be a child's parent or guardian. Parents/guardians must show staff their child's CCPS student identification (ID) badge or report card copy showing their student ID number.

Parents with children not yet enrolled in school should attempt to bring some type of age verification to show to site staff, such as a copy of a birth certificate.

There will be no need for parents to exit their vehicles to obtain the meals. Parents and guardians need only show their child's ID badge or report card to a staff member on site. The 11 meal sites operate 11 a.m. to 1 p.m. Monday through Friday. Curbside meals are provided at the following schools:

- Henry E. Lackey High School;
- Maurice J. McDonough High School;
- St. Charles High School;
- Westlake High School;
- Milton M. Somers Middle School;
- Dr. Thomas L. Higdon Elementary;

- Indian Head Elementary School;
- Mt. Hope/Nanjemoy Elementary School;
- Dr. Samuel A. Mudd Elementary School;
- J.C. Parks Elementary School; and
- J.P. Ryon Elementary School.

Parents can pick up the following for their child daily: one breakfast, one lunch, one dinner and a snack. Any requests from parents asking for additional meals on the same service day at other sites will not be honored. Visit the CCPS website at [www.ccboe.com](http://www.ccboe.com) for the latest information.

#### **Closure:**

June 13<sup>th</sup> was the last official day of instruction for Charles County Public Schools.

State Superintendent of Schools Karen Salmon announced all Maryland public schools will remain closed until the end of the 2019-20 school year. Distance learning will continue for Charles County Public Schools students. All schools, buildings and centers will remain closed to the public.

#### **Instruction:**

Report cards: Elementary school teachers will post report cards to ParentVue by June 15. Report cards for middle and high school students will be mailed to the address on file with CCPS on June 22.

Virtual summer school starts July 7, registration begins Wednesday: Summer school begins online July 7. Courses will use a mix of Microsoft Teams instruction and the Apex Learning platform. Students can take a maximum of two make-up courses during summer school. The cost of make-up courses has been waived by CCPS this year. Summer school also offers four courses for original credit and are \$300 each. Registration begins at 8 a.m. June 17. All courses run July 7 through Aug. 6. Read here for more information.

CCPS planning summer learning opportunities: CCPS staff is planning summer learning opportunities for students in all grade levels, ranging from virtual enrichment and Advanced Placement (AP) camps, to Summer Olympics Go for the Gold activities parents can do with their children at home. CCPS will share more information about summer learning opportunities next week.

#### **Community Wifi:**

Nothing new to report.

Access point equipment has not arrived in shipping as of yet. No construction on this project has begun.

All four sites are up and running and seeing use. CCPS in process of 3 other additional WiFi sites, will enable students and staff to access CCPS network not just the internet. Installation

will begin once equipment arrives at Dr. Mudd Elementary, Somers Middle School, and Gail Bailey Elementary School, adding to the other four hot spots of Piccowaxen Middle School, Henson Middle School, TC Martin Elementary School, and Mt. Hope Nanjemoy Elementary School.
