Of cases who reported having symptoms (43.2%)*, the most common symptoms were cough, loss of taste and/or smell, headache, fever, and chills.

3,090 cases reported having no COVID-19 symptoms (48.1%)*.

*5,865 out of 6,427 cases reported whether or not they were experiencing COVID-19 symptoms. Due to this, these percentages will not add up to 100%.

588 required hospitalization*. Hospitalization rate is steadily decreasing. Peak in hospitalization rate coincided with the peak in the skilled nursing facility outbreaks in late April.

*Due to a data reconciliation issue reported by Maryland Department of Health, COVID-19 hospitalization counts were not accurately captured in previous data reports. The number reported above is the accurate number of hospitalizations to date.
