Description

The primary responsibility of the new Capital Project Management (CPM) Department is to ensure that the needs of the end users are met while incorporating quality design and construction principles and practices.

The CPM Department provides professional project management services during the development and implementation of public infrastructure improvement projects within Charles County. Projects include but are not limited to roads, water, sewer, building/facility, and environmental projects. The CPM Department is responsible for managing capital improvements projects from the conceptual stages, onto design and construction, and final completion. The CPM Department actively participates annually in the budget development process by coordinating with other County Departments to establish estimated budgets to be submitted for consideration by the County Administrator.
