Hello Commissioners, I have questions about this proposal, but this is a hearing and the Commissioners won't be taking questions, so how is the public to get answers? Moving on I ask who is requesting this new language, the county or the property owner? Will the transfer station be used only for Charles County waste? Will it be an enclosed building or an open lot? How long would waste be at the location? Will there be any kind of odor control? Does the county have any kind of agreement with the property owner now? Is the county being total transparent in what this will mean if it's passed? At the earlier public hearing it was said county waste would be going to an incinerator to be burned, rest assured when this starts I will follow the truck to its destination. Please do what you feel is in the best interest of Charles County.
